

Statement of Objective Sample

Even though I may not be able to predict the overall course that this project may take in my graduate school, I am expecting that it will be able to address the following issues and themes. One is the issue of determining the phenomena I have observed from other types of food obsession and restriction, namely, the ones that involve the modern ritual in dieting, including its extreme manifestation, that is, as an eating disorder.

Even though I am not willing to avoid those controversial and complicated parallels that exist between early modern usage of food, as well as food symbolism in order to control women's lives, I also want to serve as a historian an unbiased portrayal of how modern concepts of appetite among women were filled with historically and contemporary contingent notions evolving around gender and sexuality.

On top of that, the question regarding the use of a female agency in a project that has almost been concentrated on male viewpoint when it comes to behavior and diet still needs further discussion. On more than a single occasion, my personal use, as well as the analysis of different obstetric manuals has resulted in my curiosity regarding the existence of a patriarchal apparatus in which certain actions caused the oppression.

I believe that your University can provide me with the perfect climate for developing cross-disciplinary passion and interests. Generally speaking, I am very interested in pursuing a specified emphasis on gender, women and sexuality, which is a very unique option in distinguishing your University's history program as compared to other institutions. The nature of your graduate program would hopefully foster some fruitful discussions together with other departments. I am interested in enriching and broadening my research including my overall understanding of modern history and culture.

works *The Language of Morals and Freedom and Reason Included* is the previously unpublished paper *Wrongness and Harm* which engages in the ongoing debate between prescriptivists like Hare and descriptivists such as Mr Warnock and Mrs Foot. This paper is a noteworthy addition as it seeks to identify common ground between Hare and his critics making it an essential piece for anyone studying contemporary analytical philosophy. In the preface Hare reflects on his work and the shifting nature of his philosophical views acknowledging that his positions are not fixed. While much of the volume consists of critical responses to philosophical positions he disagrees with, Hare also aims to find common ground with those he has previously contested. The inclusion of *Wrongness and Harm* exemplifies this effort offering a more provisional and open minded approach to the moral discussions at hand. This paper part of a broader seminar on Utilitarianism benefits from the insights and critiques of philosophers like Professor J J C Smart, Professor Narveson and Mr Parfit whose influence is evident in the evolving arguments presented in the text. This title is part of UC Press's *Voices Revived* program which commemorates University of California Press's mission to seek out and cultivate the brightest minds and give them voice, reach and impact. Drawing on a backlist dating to 1893, *Voices Revived* makes high quality peer reviewed scholarship accessible once again using print on demand technology. Essays in Legal and Moral Philosophy H. Kelsen, 2012-12-06 In his choice of texts, the Editor has been faced with the difficult task of selecting from among the author's more than 600 publications those of the greatest philosophical interest. It is chiefly the topics of value relativism and the logic of norms that have been kept in view. The selection has also been guided by the endeavour to reprint so far as possible texts which have not hitherto appeared in English. At times however this aim has had to be discarded in order to include works of key importance and also the latest expressions of Kelsen's view. In addition to the two topics already mentioned, the Editor has considered Kelsen's discussions of the causal principle to be so far worthy of philosophical attention that some writings on causality and accountability have been included in this collection of philosophical studies.
