Upng Application Forms 2015:

An Interdisciplinary Approach for Disaster Resilience and Sustainability Indrajit Pal, Jason von Meding, Sangam Shrestha, Iftexhar Ahmed, Thayaparan Gajendran, 2019-10-17 This book includes selected papers presented at the international expert forum on Mainstreaming Resilience and Disaster Risk Reduction in Education held at the Asian Institute of Technology Thailand on 12 December 2017. The journey towards disaster risk reduction and resilience requires the participation of a wide array of stakeholders ranging from academics to policymakers to disaster managers. Given the multifaceted and interdependent nature of disasters, disaster risk reduction and resilience require a multidisciplinary problem-solving approach and evidence-based techniques from the natural, social, engineering, and other relevant sciences. Traditionally, hazard and disaster-related studies have been dominated by the engineering and social science fields. In this regard, the main purpose of this book is to capture the multidisciplinary and multisectoral nature of disaster risk reduction and to gather existing data, research, conceptual work, and practical cases regarding risk reduction and its ties to sustainable development under a single umbrella. Along with the sustainability aspect, the book also links disaster risk reduction with development, technology, governance, education, and climate change and includes discussions on challenges, solutions, and best practices in the mainstreaming of disaster risk reduction.

Interdisciplinary Unsettlings of Place and Space Sarah Pinto, Shelley Hannigan, Bernadette Walker-Gibbs, Emma Charlton, 2019-04-25 This book brings together researchers from different fields, traditions, and perspectives to examine the ways in which place and space might be unsettled. Researchers from across the humanities and social sciences have been drawn to the study of place and space since the 1970s, and the term 'unsettled' has been an occasional but recurring presence in this body of scholarship. Though it has been used to invoke a range of meanings from the dangerous to the liberating, the term itself has rarely been at the centre of sustained examination. This collection highlights the idea of the unsettled in the scholarly investigation of place and space. The respective chapters offer a dialogue between a diverse and eclectic group of researchers crossing significant disciplinary and interdisciplinary boundaries in the process. The purpose of the collection is to juxtapose a range of different approaches to and perspectives on the unsettling of place and space. In doing so, *Interdisciplinary Unsettlings of Place and Space* makes an important contribution and offers new insights into how scholarship and research into different fields and practices may help us re-envision place and space.
