Language Teaching and Learning Debbita Tan Ai Lin, Christine Liew Ching Ling, Ambigapathy Pandian, 2014-06-19 In every discussion on the role that language plays in our lives every orator from prominent politicians and corporate figures to linguists educational experts and others concedes that language is important in all spheres of life Language is both personal and introspective as well as public and communal Without it we would not be able to communicate and articulate our thoughts and feelings to ourselves to those in our inner circles and to those in the world at large Without it we would not be able to establish partnerships and collaborations and to unite peoples of diverse backgrounds and intrinsic values Without it too we would not be able to learn new discoveries and gain new knowledge The nurturing of a language learning culture is of the utmost importance to ensure that language teaching and learning supports the development of individuals societies nations and populations Language researchers educators and practitioners need to ensure that their learners are empowered to remain relevant They need to produce critical and analytical thinkers and successful language users in listening speaking reading and writing The collection of chapters in this volume addresses language teaching and learning dilemmas and draws attention to the challenges researchers have overcome and those they continue to face The book chapters here reflect the transcendence by language teaching and learning of ordinary boundaries especially with the advent of the digital revolution and provide new perspectives pedagogies and approaches that help shape ethical responsible and sustainable policies Readers of this volume

whether language practitioners students researchers policy and decision makers concerned educationists or any interested individual will gain new insights and experiences as they explore new identities new instructional media for interactive teaching and learning and new modes of meaning in diverse local and global contexts Test Your Professional English - Business Intermediate Steve Flinders,2002 Test Your Professional English Business Intermediate is organized into eight sections and covers words and expressions in areas such as business strategy project management business jargon meetings presentations the internet and business culture **The Diagnosis of Reading in a Second or Foreign Language J.** Charles Alderson,Eeva-Leena Haapakangas,Ari Huhta,Lea Nieminen,Riikka Ullakonoja,2014-10-03 The Diagnosis of Reading in a Second or Foreign Language explores the implications of language assessment research on classroom based assessment practices by providing an in depth look at the little examined field of diagnosis in second and foreign language reading This volume examines the development of second and foreign language reading and how subsequent research findings couched in this knowledge can help facilitate a more informed teaching approach in second and foreign language classrooms By contextualizing the latest in classroom settings and presenting implications for future research in this developing area of linguistics this book is an ideal resource for those studying and working in applied linguistics second language acquisition and language assessment and education About the NPLA Series Headed by two of its leading scholars the series captures the burgeoning field of language assessment by offering comprehensive and state of the art coverage of its contemporary questions pressing issues and technical advances It is the only active series of its kind on the market and will include volumes on basic and advanced topics in language assessment public policy and language assessment and the interfaces of language assessment with other disciplines in applied linguistics Each text presents key theoretical approaches and research findings along with concrete practical implications and suggestions for readers conducting their own research or developmental studies *Business Benchmark Pre-intermediate to Intermediate BULATS Student's Book* Norman Whitby,2013-01-24 La 4e de couv indique Business benchmark second edition is the official Cambridge English preparation course for BULATS A pacy topic based course with comprehensive coverage of language and skills for business it motivates and engages both professionals and students preparing for working life The Effects of Task Type and Instructions on Second Language Acquisition Hayo Reinders,2009-12-14 Recent years have seen a growing interest in the role of tasks in second language acquisition and a substantial body of research now exists to show their potential contribution to language learning and teaching However not much is known about the effects of different task types nor about their accompanying instructions Which tasks are more successful under what circumstances What type of instructions should be included This book attempts to answer the questions above by first examining previous studies on the use of tasks the roles of input output and interaction and by placing these in a broader cognitive framework It argues that in order to understand the effects of different task types it is important not only to look at learning outcomes acquisition but also at the effects on immediate task

performance intake and by doing so to arrive at a more complete picture of the learning process The book presents the results of a study on the effects of 1 implicit and explicit inductive instructions and 2 three task types on both intake and acquisition of two English grammatical structures The study used various measures to determine intake as well as the development of both implicit and explicit knowledge The results of the study support the claims made for the benefits of Focus on Form but do not support the claims made for the benefits of more explicit types of instruction Further the results show that there is no direct relationship between intake and acquisition and that different task types can have a differential effect on immediate task performance on the one hand and learning on the other The book discusses these findings in the light of previous research and considers their implications both at the theoretical level and for language teaching practice

Acquisition of Romance Languages Pedro Guijarro-Fuentes, Maria Juan-Garau, Pilar Larrañaga, 2016-09-12 This volume presents a collection of new articles that investigate the acquisition of Romance languages across different acquisition contexts as well as refine and propose new theoretical constructs such as complexity of linguistic features as a relevant factor forming children s adults and bilinguals acquisition of syntactical morphological and phonological structures
