Unauthorized Love Jane Lilly López, 2021-11-23 A rich narrative exploration of the ways love defies survives thrives and dies as lovers contend with US immigration policy For mixed citizenship couples getting married is the easy part The US Supreme Court has confirmed the universal civil right to marry guaranteeing every couple s ability to wed But the Supreme Court has denied that this right to marriage includes married couples right to life liberty and the pursuit of happiness on US soil creating a challenge for mixed citizenship couples whose individual level rights do not translate to family level protections While US citizens can extend legal inclusion to their spouses through family reunification they must prove their worthiness and the worthiness of their love before their relationship will be officially recognized by the state In *Unauthorized Love* Jane L pez offers a comprehensive

critical look at US family reunification law and its consequences as experienced by 56 mixed citizenship American couples. These couples' stories of integration and alienation of opportunity and inequality of hope and despair make tangible the consequences of current US immigration laws that tend to favor Whiteness, wealth, and heteronormativity as well as the individual rather than the family unit in awarding membership and official belonging. In examining the experiences of couples struggling to negotiate intimacy under the constraints of immigration policy, Lopez argues for a rethinking of citizenship as a family affair.

Winning the War on Poverty Brian L. Fife, 2018-04-12. Applying lessons from history to the reality of poverty today in the United States, the most affluent country in the world, this book analyzes contributing factors to poverty and proposes steps to relieve people affected by it. American history is replete with efforts to alleviate poverty. While some efforts have resulted in at least partial success, others have not because poverty is a multifaceted, complicated phenomenon with no simple solution. *Winning the War on Poverty* studies the history of poverty relief efforts in the United States dating to the 19th century, debunking misperceptions about the poor and tackling the problem of the ever-widening gap between the rich and poor. It highlights the ideological differences between liberal and conservative beliefs and includes insights drawn from a well-rounded group of disciplines including political science, history, sociology, economics, and public health. Premised on the idea that only the lessons of history can help policymakers recognize that the United States has a persistent poverty problem that is much worse than it is in many other democracies, the book suggests an 18-point plan to substantively address this dilemma. Its vision for reform does not pander to any particular ideology or political party; rather, this book explains how the United States can win the war on poverty in the short term.

Civic Education in the Age of Mass Migration Angela M. Banks, 2021. This important book offers a more inclusive approach to preparing students to be responsible participants in a democratic society. Civic education generally operates through the lens of citizenship, where students learn what good citizenship is and what good citizens do. Yet the citizenship lens fails to identify the wide range of school children and their families who participate in economic, political, and social life. *Civic Education in the Age of Mass Migration* examines the exclusionary aspects of citizenship and offers democratic societies an alternative approach that includes all long-term residents regardless of citizenship and immigration status. Banks reimagines a civic education curriculum that gives students the knowledge and skills they will need to assist the United States in becoming a more perfect union. Book Features: A brief overview of the history of civic education and why citizenship status and immigration status should be explicitly addressed. An examination of the economic, political, and social forces shaping immigration law. A new way to conceptualize membership based on three principles: popular sovereignty, participation, and the *jus nexi* principle. Classroom activities and discussion questions to help civic educators incorporate the idea of citizenship boundaries into their curriculum.
