**Zimbabwe Journal of Educational Research** ,2005      *Resilience Under Siege* Ezra Chitando,Munyaradzi Nyakudya,Government Phiri,2016-04-26 This volume explores the challenges and solutions experienced within Zimbabwe's economic and social spheres with particular reference to the crisis years 2000-2008 and the promising turn 2009-2012. This latter phase was prompted by the formation of the Government of National Unity (GNU). The contributors to the volume pay attention to how individuals and institutions sought to respond to the crisis, critiquing the reactions of various actors and exploring solutions to the various challenges that were experienced. Chapters in this book include reviews of agricultural subsidies, a gendered approach to poverty, the collapse of service delivery including a particular focus on education, the local East policy, the expansion of the religious sector and the experiences of Zimbabwean migrants in South Africa. Underlying these contributions are the concepts of resilience and agency. The authors all highlight the massive challenges that individuals and institutions had to navigate and acknowledge the creativity deployed in such quests. This book will appeal to scholars in economics, history and economic history, religious studies, education and political science, as well as the general reader.

**International Handbook of Urban Education** William T. Pink, George W. Noblit, 2008-09-03 It is evident that urban education has become the central focus of educators at the present time. In the U.S. for example, almost one third of all school-age children attend schools in large urban school districts. It is in these urban schools where the diversity of cultures and languages is highest and where student learning is most problematic. What has emerged from recent work to improve urban schools is the insight that there is no one size fits all panacea. Rather, we have discovered that the local context shapes in critically important ways what will be effective at the school level. The universality of the problematics with urban education together with the importance of understanding the local or situated context of improvement interventions brings into sharp focus the importance and timeliness of an undertaking like the *International Handbook of Urban Education*. An important focus of the *International Handbook of Urban Education* will be the interrogation of both the social and political factors that lead to different problem posing and subsequent solutions within each region. An important question to be answered for example is what it takes in terms of resources, political will and policy actions to improve urban education.

**Studies in Art Education** ,2003      **imwe imba - the other room** Munashe Wadzanai, Anne Schlechters, Thomas F. Andersson, 2022-11-01 Munashe is a bright adolescent girl living in Zimbabwe. She feels a pressure to leave Zimbabwe and to follow most of her peers to a university or to work in the West. However, she is not convinced that this is what she really wants. Via Thomas, an experienced European scientist and manager initiating a technical Start-up Hub at her boarding school, Munashe comes in contact with Anne Imwe imba. *The other room* is a novel covering the last 2 high school years of Munashe and Anne in letters between the young women, as well as from Thomas to Simon, his now retired personal and business coach. Through the letters, Anne and Simon discover unknown and fascinating aspects of the southern African society. Especially since Thomas includes

stories from Nelson Munashe's grandfather and small holder farmer Based on the stories and hearing about Munashe's activities in more technical projects Anne develops a critical attitude towards both the current Western school system and the effectiveness of traditional Western development or aid projects On the other side Munashe learns that Europe is not the land of milk and honey for everybody Munashe and Anne assisted by Thomas review the so called development work activities in emerging markets and propose a promising approach to economically uplift more rural areas In part 2 the Start up Hub activities are proven to be sustainable and Munashe asks where do we want to go A design is made for a more ideal global society and the issues faced implementing their ideas are discussed The letters in this novel cover a wide spectrum of topics personal struggles and contemplations educational and business practices science and art geopolitics and historical backgrounds change management as well as social developments Each letter is written in an accessible language and underlined with references to allow the reader to explore more Most of all imwe imba wants to create awareness Awareness for the wonderful real life in Africa Awareness that Africa is prosperity Awareness that our younger generation is perfectly able to initiate change That a single person can initiate change That complaining or being upset about various unacceptable global happenings or actions is not enough That a further polarisation and blaming the others doesn't help That we have to do things That we should not fear change but embrace the changes that are needed to come to the necessary improvements
