**The Economics and Political Economy of African Air Transport** Kenneth Button, Gianmaria Martini, Davide Scotti, 2017-09-14 Africa is the smallest of the regional aviation markets but one that Boeing and others expect to expand over the medium term. Developments on the continent that require the creation of robust and efficient air transport include growth in tourism, the export of exotics and the emergence of modern manufacturing and high tech industries. Africa's regional aviation markets generally lack good airports and air traffic control, viable airlines and adequately skilled labour. Airline safety is also a major concern. Written by a Who's Who of aviation specialists and policy makers, *The Economics and Political Economy of African Air Transport* fills an emerging void in the literature regarding Africa's aviation markets. Its original papers focus explicitly on the economic and political dimensions of the subject, although with relevance to the strategic planning and management of airlines and their associated infrastructure. Topics discussed include external and internal market efficiencies, air service liberalization, the emergence of new carriers, safety and security, low cost airline and other business models and airport economics. Focusing on the broader issues surrounding the subject, this book will be of interest to both the aviation community and those with an interest in economic and social development. *Political Handbook of the World 2022-2023* Tom Lansford, Jorge Brown, 2023 With more in depth coverage of current political controversies than any other reference guide, *Political Handbook of the World 2022-2023* is the most authoritative source for finding complete facts and analysis on each country's governmental and political makeup. **Political Handbook of the World 2020-2021** Tom Lansford, 2021-05-31 The *Political Handbook of the World* by Tom Lansford provides timely, thorough and accurate political information with more in depth coverage of current political controversies than any other reference guide.
