Useful guide for those making pilgrimage Includes suggestions for books hotels flights transportation visa as well as a health guide maps laws and practices supplications and salutations information about cities and even a shopping guide **The Places Where Men Pray Together** Paul Wheatley,2001 What makes a city an economic political and cultural center In *The Places Where Men Pray Together* Paul Wheatley draws on two decades of astonishingly wide ranging research to demonstrate that Islamic cities are defined by function rather than form by what they do rather than what they are Focusing on the roles of cities during the first four centuries of Islamic expansion Wheatley explores interconnected cultural historical economic political and religious factors to provide the clearest and most extensively documented portrait of early Islamic urban centers available to date Building on the tenth century geographer al Maqdisi s writings on urban centers of the Islamic world buttressed by extensive comparative material from roadbooks topographies histories adab literatures and gazetteers of the time Wheatley identifies the main functions of different Islamic urban centers Chapters on each of the thirteen centers that al Maqdisi identified ranging from the Atlantic to the Indus and from the Caspian to the Sudan form the heart of this book In each case Wheatley shows how specific agglomeration and accessibility factors combined to make every city functionally distinct as a creator of effective space He also demonstrates that far from revolutionizing every aspect of life in these cities the adoption of Islam often affected the development of these cities less than previously existing local

traditions The Places Where Men Pray Together is a monumental work that will speak to scholars and readers across a broad variety of disciplines from historians anthropologists and sociologists to religious historians archaeologists and geographers
