History Gr11 L/b , *Zimbabwe Books in Print* ,1993      **Zimbabwe National Bibliography** ,1990      **Zimbabwe's New Diaspora** JoAnn McGregor,Ranka Primorac,2010-06-01 Zimbabwe's crisis since 2000 has produced a dramatic global scattering of people This volume investigates this enforced dispersal and the processes shaping the emergence of a new diaspora of Zimbabweans abroad focusing on the most important concentrations in South Africa and in Britain Not only is this the first book on the diasporic connections created through Zimbabwe's multifaceted crisis but it also offers an innovative combination of research on the political economic cultural and legal dimensions of movement across borders and survival thereafter with a discussion of shifting identities and cultural change It highlights the ways in which new movements are connected to older flows and how displacements across physical borders are intimately linked to the reworking of conceptual borders in both sending and receiving states The book is essential reading for researchers students in migration diaspora and postcolonial literary studies      *History Gr11 L/b Afrikaans* ,      *Teacher in Zimbabwe* ,1992      **Facing Global Environmental Change** Hans Günter Brauch,Navnita Chadha Behera,Patricia Kameri-Mbote,John Grin,Úrsula Oswald Spring,Béchir Chourou,Czeslaw Mesjasz,Heinz Krummenacher,2009-06-04 The year 2007 could perhaps accurately be described as the year when climate change finally received the attention that this challenge deserves globally Much of the information and knowledge that was created in this field during the year was the result of the findings of the Fourth Assessment Report AR4 of the Intergovernmental Panel on Climate Change IPCC which were disseminated on a large scale and reported extensively by the media This was the result not only of a heightened interest on the part of the public on various aspects of climate change but also because the IPCC itself proactively attempted to spread the findings of its AR4 to the public at large The interest generated on the scientific realities of climate change was further enhanced by the award of the Nobel Peace Prize to the IPCC and former Vice President of the US Al Gore By taking this decision in favour of a leader who has done a great deal to create awareness on climate change and a body that assesses all scientific aspects of climate change and disseminates the result of its findings the Norwegian Nobel Committee has clearly drawn the link between climate change and peace in the world      *Mathematics Education Across Time and Place* Thomas O'Shea,2016-05-19 What is mathematics and what aspects of it should be taught in schools How and to whom should it be taught and how should its understanding be assessed These questions continue to drive curriculum development school organization teaching methods and research agendas No one today doubts that mathematics should be taught in our schools but this was not always so *Mathematics Education Across Time and Place* aims to help mathematics teachers teacher educators and anyone else interested in mathematics education appreciate the path this discipline has taken through the ages To understand the historical and social context for schools and the place of mathematics within them we meet a variety of mathematics educators from different times and places Though fictional their lives and social circumstances are based on historical

documents and professional sources They range from ancient Greece to modern Zimbabwe from Persia to British Columbia from Islamic Baghdad to revolutionary Paris from Elizabethan England to twentieth century New York and from the rural one room schools of North America to the modern comprehensive secondary school By sharing the teachers lives we come to understand how they developed their love for teaching mathematics and how their work fit into the larger social context of their time
