Otulaja,Meshach B. Ogunniyi,2017-09-12 Each volume in the 7 volume series The World of Science Education reviews research in a key region of the world These regions include North America South and Latin America Asia Australia and New Zealand Europe and Israel North Africa and the Middle East and Sub Saharan Africa The focus of this Handbook is on research in science education in mostly former British colonies in Sub Saharan Africa and the scholarship that most closely support this program The reviews of the research situate what has been accomplished within a given field in Sub Saharan Africa rather than an international context The purpose therefore is to articulate and exhibit regional networks and trends that produced specific forms of science education The thrust lies in identifying the roots of research programs and sketching trajectories focusing the changing fa ade of problems and solutions within regional contexts The approach allows readers to review what has been done and accomplished what is missing and what might be done next **Remembering Colonialism in Zimbabwe** Ivan Marowa,Ushehwedu Kufakurinani,2023-12-14 This book examines the various ways in which colonialism in Zimbabwe is remembered looking both at how people analyse perceive and interpret the past and how they rewrite that past elevating some players and their historical agency Inspired by the ongoing movement on decoloniality this book examines the ways in which generations of today question and challenge colonialism s legacies and their role in Zimbabwe s collective memories and history The book analyses the memorialising of both Mugabe and Mnangagwa in their speeches and during the political transition before going on to trace the continuing impact of colonialism across areas as diverse as dress code place naming agriculture religion gender and in marginalised communities such as the BaKalanga Drawing on the expertise of Zimbabwean scholars this book will appeal to researchers of decolonisation and of African history and memory **Restoring the Educational Dream. Rethinking Educational Transformation in Zimbabwe** Shizha, Edward,2013-12-07 The role of education in human well being and social development cannot be overestimated After a number of highly commendable policies on education in the first decade of

independence the education system in Zimbabwe has taken a tumble that needs both examining and rectifying This volume analyses the challenges facing the education system in Zimbabwe and explores and scrutinises theoretical and practical possibilities for restoring the educational dream that was initiated at independence in 1980 The book is targeted at academics scholars college and university students policy makers and other stakeholders and advocates a multi pronged approach that must involve all stakeholders if educational retransformation reconstruction and restoration are to be achieved The authors provide a range of recommendations for a project that would restore the educational dream in Zimbabwe

ICICKM 2017 14th International Conference on Intellectual Capital Knowledge Management &

Organisational Learning Prof. Eric Tsui ,Prof. Benny Cheung,2017-07-12 *Membering the Rhodesian Linguistic Agenda in Zimbabwe* Isaac Mhute,2023-07-28 Membering the Rhodesian Linguistic Agenda in Zimbabwe reports on a study carried out in Zimbabwe to ascertain the degree and effect of honouring the colonial linguistic agenda The book employs an interpretivist philosophy and qualitative research approach that relies on participatory observations interviewing purposively sampled informants and focus group discussions involving snowball sampled graduates It was inspired by the Critical Language Policy Theory that considers language choice a critical determinant factor in how communities are administered politically economically socioculturally and educationally It establishes that whereas linguistic imperialism meant to serve as the lifeblood of the Southern Rhodesian colonial machine the former coloniser ensured coloniality in Zimbabwe by presenting the English language as a sacred media in political economic sociocultural and educational settings forever The study establishes that the only way Zimbabwe and other such post colonies could find redemption is by eradicating the sacredness of former colonisers languages by adding value to all their languages and the indigenous knowledge systems associated with them It also demonstrates that the bigger the delay the more is irretrievably lost together with custodians of the languages This book will be informative for undergraduates postgraduates and researchers in linguistics communication sociology anthropology and history It may also serve well as a resource to government researchers politicians and other policymakers

Contemporary Innovation Trends in the Zimbabwean Education System Stella Muchemwa,Munyaradzi

Mawere,2024-09-23 Innovation is rapidly becoming a driving force in every global sector and education is no exception This book offers a timely and comprehensive analysis of innovation trends within Zimbabwe s education system exploring its impact on students teachers and the wider educational landscape Drawing on extensive research and firsthand accounts the book meticulously evaluates the potential of innovation to drive socio economic growth and enhance lives While acknowledging the benefits of innovation and creativity the authors also raise critical questions about the ethical implications and long term sustainability of these advancements especially within the Zimbabwean context This balanced exploration offers invaluable insights for anyone seeking a deeper understanding of the complexities and possibilities surrounding educational innovation in Zimbabwe **STEM Education in Poverty** Brantina Chirinda,Gladys Sunzuma,Perkins

Muredzi,2025-07-15 This book is about Science Technology Engineering and Mathematics STEM education in poverty and the lessons we learn from Zimbabwe The world is driving towards the fourth Industrial Revolution 4IR where economic growth has been attributed to STEM education STEM education is vital in this era where both developed and developing countries are undergo rapid changes Globally STEM education has been practised differently in schools and universities University programs new school curricula instructional methods extracurricular programs and professional development programs for in service teachers have been created to cater to STEM subjects STEM education is envisioned to produce critical thinkers inventors creators problem solvers innovators and professionals who will solve the world s ever changing challenges including inequity food insecurity climate change inequality and poverty STEM is essential to modern education Zimbabwe has faced significant economic challenges but has made remarkable strides in STEM education By examining the successes and challenges of STEM education in Zimbabwe we can learn valuable lessons about improving STEM education in underserved communities This book contributes to the international debate surrounding the optimal STEM education for students in underserved schools It incorporates detailed accounts of STEM education in Zimbabwe schools shedding light on the challenges students and educators face in impoverished areas In Zimbabwe STEM education faces significant challenges such as materials and facilities pedagogy policy reform access and relevance Some of the main issues highlighted in this book are the need for more resources including funding teaching materials and adequate laboratories Effective STEM pedagogy is hampered by an education system that emphasises the curriculum and teacher centred focus instead of focusing on how students can be taught or learn Research has shown that in Zimbabwe STEM teachers must apply inventive pedagogies and suitable learner centred STEM teaching approaches As a result there is a need for more STEM related programs and courses in schools and universities to improve the opportunities for students to pursue careers in these fields Another challenge is the need for more awareness about the opportunities and importance of STEM education and interest in STEM subjects among students which can be attributed to a lack of exposure and understanding of the relevance and importance of these fields in today s world While lack of resources and other challenges hinder effectiveness opportunity lies in promising pathways of policy and practice In Zimbabwe there is a varying degree of success in the implemented competence based curriculum which emphasises inquiry based learning and STEM education Finally there is a need for early exposure to STEM based career opportunities and for more collaboration between the government private sector and educational institutions to address these challenges and promote STEM education in Zimbabwe This book uses Zimbabwe as an example to explore STEM education in poverty By examining the successes and challenges of STEM education in Zimbabwe this book offers valuable insights into how STEM education can be integrated into the curriculum in countries with developing and emerging economies This book is an essential resource for anyone interested in improving STEM education in underserved communities
