Zimsec Nov 20question Paper 2:

The History and Political Transition of Zimbabwe Sabelo J. Ndlovu-Gatsheni, Pedzisai Ruhanya, 2020-10-21 This book is the first to tackle the difficult and complex politics of transition in Zimbabwe with deep historical analysis Its focus is on a very problematic political culture that is proving very hard to transcend At the center of this culture is an unstable but resilient nationalist military alliance crafted during the anti colonial liberation struggle in the 1970s Inevitably violence misogyny and masculinity are constitutive of the political culture Economically speaking the culture is that of a bureaucratic parasitic primitive accumulation and corruption which include invasion and emptying of state coffers by a self styled Chimurenga aristocracy However this Chimurenga aristocracy is not cohesive as the politics that led to Robert Mugabe s ousting from power was preceded by dirty and protracted internal factionalism At the center of the factional politics was the first family Robert Mugabe and his wife Grace Mugabe This book offers a multidisciplinary examination of the complex contemporary politics in Zimbabwe taking seriously such issues as gender misogyny militarism violence media identity modes of accumulation the ethnicization of politics attempts to open lines of credit and FDI national healing and the national question as key variables not only of a complete political culture but also of difficult transitional politics The Future of Zimbabwe's Agrarian Sector

Defence, 1980 Dwelling in Political Landscapes Anu Lounela, Eeva Berglund, Timo Kallinen, 2019-05-22 People all over the globe are experiencing unprecedented and often hazardous situations as environments change at speeds never before experienced This edited collection proposes that anthropological perspectives on landscape have great potential to address the resulting conundrums The contributions build on broadly phenomenological structuralist and multi species approaches to environmental perception and experience but they also argue for incorporating political power into analysis alongside dwelling cosmology and everyday practice The book s 13 ethnographically rich chapters explore how the material and the

conceptual are entangled in and as landscapes but it also looks at how these processes unfold at many scales in time and space involving different actors with different powers Thus it reaches towards new methodologies and new ways of using anthropology to engage with the sense of crisis concerning environment movements of people climate change and other planetary transformations Dwelling in political landscapes contemporary anthropological perspectives builds substantially upon anthropological work by Tim Ingold Anna Tsing and Philippe Descola and on related work beyond which emphasises the ongoing and open ended yet historically conditioned ways in which humans and nonhumans produce the environments they inhabit In such work landscapes are understood as the medium and outcome of meaningful life activities where humans like other animals dwell This means that landscapes are neither social cultural nor natural but socio natural Protesting against and moving on from the proverbial dualisms of modern Western and maybe capitalist thought is only the first step in renewing anthropology s methodology for the current epoch however The contributions ask how seemingly disconnected temporal representational economic and other systemic dynamics fold back on lived experience that are materialised in landscapes Foremost through studying how socially valued landscapes become irreversibly disturbed commodified or subjected to wilful markings or erasures the book explores a number of approaches to how landscapes are entangled in the ways people gather and organise themselves Mindful of troubling changes in Earth Systems all the authors argue from empirics They show that processes of landscape change are always both habitual and laden with choices That is landscape change is political Undoubtedly landscape politics is bound up not just in how nature has been imagined but in long histories of consumption Today an alarming quest for raw materials and energy continues to change both political and geological formations Meanwhile dominant socio political aspirations mean the exploitation of staggering volumes of cheap resources like fossil fuels in order to sustain economic processes that are as taken for granted as they are unsustainable Like anthropology generally this book attends to the contextual details buried in such planet scale pictures Building on traditional anthropological strengths many authors consider the details of how the past is brought into the present or erased from it in material flows and sensory awareness as well as in narratives that are explicitly linked to particular landscapes Colonial identity formation and the different ways that it links with how landscape is viewed and managed for instance for resource development for a global market whether in Southern Africa Israel Palestine the Canadian arctic or Indonesia is a particularly striking example of how to talk about landscape is also to talk about past present and future And as the idea that we inhabit the Anthropocene becomes commonplace the discipline can meaningfully discuss the current era as one of disavowed ruins as well as of poorly understood multispecies relations To think of landscape as historically produced across multiple scales does not mean ignoring its sensuous qualities let alone its role in cosmological systems On the contrary the analyses in the collection attend to the ways people s movements through the landscape produce it as a material and conceptual resource Taken together the book s ethnographic analyses take on board the unprecedented conditions under

which people everywhere are having to make sense and forge relationships to the worlds they inhabit Since landscapes are not what they used to be neither can anthropology be

Sports Law in Zimbabwe Tinashe Madebwe, Jimcall Pfumorodze, Emma Chitsove, Thabo Fiona Khumalo, 2022-09-20 Derived from the renowned multi volume International Encyclopaedia of Laws this practical analysis of sports law in Zimbabwe deals with the regulation of sports activity by both public authorities and private sports organizations The growing internationalization of sports inevitably increases the weight of global regulation yet each country maintains its own distinct regime of sports law and its own national and local sports organizations Sports law at a national or organizational level thus gains a growing relevance in comparative law The book describes and discusses both state created rules and autonomous self regulation regarding the variety of economic social commercial cultural and political aspects of sports activities Self regulation manifests itself in the form of by laws and encompasses organizational provisions disciplinary rules and rules of play However the trend towards more professionalism in sports and the growing economic social and cultural relevance of sports have prompted an increasing reliance on legal rules adopted by public authorities This form of regulation appears in a variety of legal areas including criminal law labour law commercial law tax law competition law and tort law and may vary following a particular type or sector of sport It is in this dual and overlapping context that such much publicized aspects as doping sponsoring and media and responsibility for injuries are legally measured This monograph fills a gap in the legal literature by giving academics practitioners sports organizations and policy makers access to sports law at this specific level Lawyers representing parties with interests in Zimbabwe will welcome this very useful guide and academics and researchers will appreciate its value in the study of comparative sports law

Enabling environment and digital technology use readiness in agriculture in the Zambezi riparian countries Matchaya, Greenwell, Malambo, M., Mayoyo, A., 2023-12-31 This study sought to understand the extent of digital technology usage across Zambezi riparian countries and analyze whether there is a conducive enabling environment for digital technology upscaling for climate adaptation The study thus examined the relationship between having a better enabling environment and the use of digital technologies in agriculture Using data collected through stakeholder consultations in Malawi Mozambique Zambia and Zimbabwe as well desk studies focusing on the rest of the Zambezi riparian countries Angola Botswana Malawi Mozambique Namibia Tanzania Zambia and Zimbabwe the study finds that having an enabling environment for the upscaling of digital technologies varies from one Zambezi riparian country to the other with Botswana and Namibia having a better enabling environment and thus a better readiness for digital technology upscaling Malawi Mozambique and Tanzania have enabling environments that beg for improvement to facilitate large scale adoption and upscaling of digital technology Other key constraints that undermine the adoption and use of digital technologies across the Zambezi River Basin countries are related to availability access affordability technology design ease of doing business cultural and family norms gender and poor user skills The cost of data was observed to be one of the major

constraints for digital technology use in climate change adaptation across several countries Macroeconomic conditions particularly inflation and lack of foreign exchange also undermine growth prospects of digital technology adaptation as many of these technologies need to be imported It is interesting that correlations between enabling environment indicators and digitalization variables appear to reveal a positive relationship signifying that to upscale the use of digital technologies in agriculture it is critical to address parameters within the enabling environments including pre requisite infrastructure macro economic stability policy and regulatory environment Resources in Education ,1992

Do 'Zimbabweans' Exist? Sabelo J.

Ndlovu-Gatsheni,2009 This book examines the triumphs and tribulations of the Zimbabwean national project providing a radical and critical analysis of the fossilisation of Zimbabwean nationalism against the wider context of African nationalism in general The book departs radically from the common praise texts in seriously engaging with the darker aspects of nationalism including its failure to create the nation as people and to install democracy and a culture of human rights The author examines how the various people inhabiting the lands between the Limpopo and Zambezi Rivers entered history and how violence became a central aspect of the national project of organising Zimbabweans into a collectivity in pursuit of a political end

childhood education gender disability race class and religion the individual in history and emotions violence labour and illiteracy With introductions that contextualize each of the four parts and the articles further reading sections and questions this is the perfect guide for all students of the history of childhood *Border Jumping and Migration Control in Southern Africa* Francis Musoni, 2020-04-07 With the end of apartheid rule in South Africa and the ongoing economic crisis in Zimbabwe the border between these Southern African countries has become one of the busiest inland ports of entry in the world As border crossers wait for clearance crime violence and illegal entries have become rampant Francis Musoni observes that border jumping has become a way of life for many of those who live on both sides of the Limpopo River and he explores the reasons for this including searches for better paying jobs and access to food and clothing at affordable prices Musoni sets these actions into a framework of illegality He considers how countries have failed to secure their borders why passports are denied to travelers and how border jumping has become a phenomenon with a long history especially in Africa Musoni emphasizes cross border travelers active participation in the making of this history and how clandestine mobility has presented opportunity and creative possibilities for those who are willing to take the risk **Jimmy Carter in Africa** Nancy Mitchell, 2023-05-25 By a wide margin the best book about Carter s presidency that s yet appeared Christian Science Monitor In the mid 1970s the Cold War had frozen into a nuclear stalemate in Europe and retreated from the headlines in Asia As Gerald Ford and Jimmy Carter fought for the presidency in late 1976 the superpower struggle overseas seemed to take a backseat to more contentious domestic issues of race relations and rising unemployment There was one continent however where the Cold War was on the point of flaring hot Africa Jimmy Carter in Africa opens just after Henry Kissinger s failed 1975 plot in Angola as Carter launches his presidential campaign The Civil Rights Act was only a decade old and issues of racial justice remained contentious Racism at home undermined Americans efforts to win hearts and minds abroad and provided potent propaganda to the Kremlin As President Carter confronted Africa the essence of American foreign policy stopping Soviet expansion slammed up against the most explosive and raw aspect of American domestic politics racism Drawing on candid interviews with Carter as well as key U S and foreign diplomats and on a dazzling array of international archival sources Nancy Mitchell offers a timely reevaluation of the Carter administration and of the man himself In the face of two major tests in Rhodesia and the Horn of Africa Carter grappled with questions of Cold War competition domestic politics personal loyalty and decision making style Mitchell reveals an administration not beset by weakness and indecision as is too commonly assumed but rather constrained by Cold War dynamics and by the president s own temperament as he wrestled with a divided public and his own human failings Jimmy Carter in Africa presents a stark portrait of how deeply Cold War politics and racial justice were intertwined An impressive historical work in every respect Choice Her writing flows and she places Carter s Africa policy within the larger context of US foreign policy and politics International Journal
