Spaces for African Epistemologies in the Inclusive Education Discourse Maguvhe, Mbulaheni Obert,Masuku, Mfundo

Mandla,2021-12-31 Students with disabilities who are not able to perform to the best of their abilities often find themselves learning in inaccessible environments and subjected to increased stress levels due to the haphazard provisioning of education characterized by physical communicative and unsuitable teaching and learning approaches Very often this is a result of various shortcomings including unfair assessment practices Misconceptions and a lack of knowledge with regard to the implementation of inclusive education detract from the successful admission of students with disabilities and their retention and active participation The Handbook of Research on Creating Spaces for African Epistemologies in the Inclusive Education Discourse explores the concept of inclusive education in an African context It advocates for the monitoring and evaluation of inclusive education and proposes interventions where reasonable accommodation or lack of accessibility is a reason for students with disabilities to not benefit from this system Covering topics such as barriers to learning rural schools and student support this major reference work is an essential resource for administrators advocates for students with disabilities policymakers researchers pre service teachers educators academicians and students **South African Quarterly** ,1914

Handbook of Research on Student-Centered Strategies in Online Adult Learning Environments Fitzgerald, Carlton

J.,Laurian-Fitzgerald, Simona,Popa, Carmen,2018-06-08 As traditional classroom settings are transitioning to online environments teachers now face the challenge of using this medium to promote effective learning strategies especially when teaching older age groups Because adult learners bring a different set of understandings and skills to education than

younger students such as more job and life experiences the one size fits all approach to teaching does not work thus pushing educators to create a student centered approach for each learner The Handbook of Research on Student Centered Strategies in Online Adult Learning Environments is an important resource providing readers with multiple perspectives to approach issues often associated with adult learners in an online environment This publication highlights current research on topics including but not limited to online competency based education nontraditional adult learners virtual classrooms in public universities and teacher training for online education This book is a vital reference for online trainers adult educators university administrators researchers and other academic professionals looking for emerging information on utilizing online classrooms and environments in student centered adult education

International Handbook of Urban Education

William T. Pink, George W. Noblit, 2008-09-03 It is evident that urban education has become the central focus of educators at the present time In the U S for example almost one third of all school age children attend schools in large urban school districts It is in these urban schools where the diversity of cultures and languages is highest and where student learning is most problematic What has emerged from recent work to improve urban schools is the insight that there is no one size fits all panacea Rather we have discovered that the local context shapes in critically important ways what will be effective at the school level The universality of the problematics with urban education together with the importance of understanding the local or situated context of improvement interventions brings into sharp focus the importance and timeliness of an undertaking like the International Handbook of Urban Education An important focus of the International Handbook of Urban Education will be the interrogation of both the social and political factors that lead to different problem posing and subsequent solutions within each region An important question to be answered for example is what it takes in terms of resources political will and policy actions to improve urban education
