**Jane's Navy International**, 2006

*South Africa's Post-Apartheid Military* Lindy Heineken, 2020-01-01 This timely book examines how the South African National Defence Force has adapted to the country's new security political and social environment since 1994 In South Africa's changed political state how has civilian control of the military been implemented and what does this mean for defence in a democracy This book presents an overview of the security environment how the mission focus of the military has changed and the implications for force procurement force preparation force employment and force sustainability The author addresses other issues such as the effect of integrating former revolutionary soldiers into a professional armed force the effect of affirmative action on meritocracy recruitment and retention military veterans looking at the difficulties they face in reintegrating back into society and finding gainful employment gender equality and mainstreaming the rise of military unions and why a confrontational instead of a more corporatist approach to labour relations has emerged HIV AIDS and the consequences this holds for the military in terms of

its operational effectiveness In closing the author highlights key events that have caused the SANDF to become lost in transition and transformation spelling out some lessons learned The conclusions she draws are pertinent for the future of defence security and civil military relations of countries around the world *After Freedom* Katherine S. Newman, Ariane De Lannoy, 2015-03-24 Twenty years after the end of apartheid a new generation is building a multiracial democracy in South Africa but remains mired in economic inequality and political conflict The death of Nelson Mandela in 2013 arrived just short of the twentieth anniversary of South Africa's first free election reminding the world of the promise he represented as the nation's first Black president Despite significant progress since the early days of this new democracy frustration is growing as inequalities that once divided the races now grow within them as well In *After Freedom* award winning sociologist Katherine S Newman and South African expert Ariane De Lannoy bring alive the voices of the freedom generation who came of age after the end of apartheid Through the stories of seven ordinary individuals who will inherit the richest and yet most unequal country in Africa Newman and De Lannoy explore how young South Africans whether Black White mixed race or immigrant confront the lingering consequences of racial oppression These intimate portraits illuminate the erosion of old loyalties the eruption of class divides and the heated debate over policies designed to redress the evils of apartheid Even so the freedom generation remains committed to a united South Africa and is struggling to find its way toward that vision

**India's Maritime Strategy** Shishir Upadhyaya, 2019-09-05 The first book by a former Indian naval intelligence officer on Sino India relations *India's Maritime Strategy* provides a unique insight into the Indian Navy tracing its post independence growth and discussing its transformation and future in the 21st century In the context of the rise of China's maritime power in the Indian Ocean this book provides a nuanced view of the extent and scope of India's maritime reach and the effect of this on Sino Indian competition Challenging the view that by developing a favourable environment alone India could seek to maintain its balance of power with China it is argued that despite durable bilateral security ties with most regional states India's maritime aspirations to be the primary net security provider for the region are unsustainable in the long term This book presents a comprehensive coverage of India's bilateral maritime security engagements with all the Indian Ocean regional states as well as the US France UK and Russia As such it will be useful to students and scholars of Indian and South Asian politics international relations and maritime security A Postcard History of the Passenger Liner Christopher Deakes, 2023-10-01 From around 1880 for almost a hundred years shipowners commissioned a wealth of paintings that depicted their magnificent liners as well as the routes they travelled their exotic destinations and life onboard These

paintings rich in imagination and atmosphere appeared on postcards and posters of the day and were used to advertise the companies and their ships and so was born a whole genre that produced tens of thousands of paintings which formed a wonderful record of the great era of the passenger liner In 1900 there were over thirty shipping companies operating passenger liners across the North Atlantic Other oceans were similarly served But now with just a few exceptions the companies and their liners have disappeared along with the art they once inspired Little remains to recall this aspect of our maritime past except the postcards and they tell an evocative story of the vanished world of elegant ships and leisurely travel of social and political times much changed by the history of the past century Here brought vividly to life in more than 500 colourful postcards are the ships on which so many of our predecessors sailed as emigrants soldiers administrators or simply as tourists in days long past These cards which are now highly collectable show how steamships developed over the years but they are also a fine tribute to the artists who painted them This volume also includes a glossary of some 170 illustrators which forms an important reference section and advice on collecting

**The Report: Abu Dhabi 2020** Oliver Cornock, Abu Dhabi is home to the world s sixth largest proven oil reserves and is working to achieve self sufficiency in natural gas It has been successfully pursuing diversification particularly in terms of manufacturing banking and ICT While the global Covid 19 pandemic and decline in international oil prices poses challenges for the emirate the fundamentals underpinning its economy remain strong

Niger Delta: The Business of the Oil Curse Marc-Antoine Pérouse de Montclos, 2024-05-13 Based on 30 years of fieldwork in the Niger Delta this book debunks the determinism of the resource curse theory in Nigeria Africa s leading oil producer and the most populous country on the continent It rather shows that oil and gas production is only one element of a social problem with much deeper roots It also investigates the role played by the youth a key issue in a society where half of the population is under 18 years old To understand the multiple causes of the crisis it thus delves into the complexity of a rich history

**To Govern the Globe**

Alfred W. McCoy, 2021-11-16 In a tempestuous narrative that sweeps across five continents and seven centuries this book explains how a succession of catastrophes from the devastating Black Death of 1350 through the coming climate crisis of 2050 has produced a relentless succession of rising empires and fading world orders During the long centuries of Iberian and British imperial rule the quest for new forms of energy led to the development of the colonial sugar plantation as a uniquely profitable kind of commerce In a time when issues of race and social justice have arisen with pressing urgency the book explains how the plantation's extraordinary profitability relied on a production system that literally worked the slaves to death creating an insatiable appetite for new captives that made the African slave trade a central feature of modern capitalism for over four centuries After surveying past centuries roiled by imperial wars national revolutions and the struggle for human rights the closing chapters use those hard won insights to peer through the present and into the future By rendering often opaque environmental science in lucid prose the book explains how climate change and changing world orders will shape the life opportunities for younger generations born at the start of this century during the coming decades that will serve as the signposts of their lives 2030 2050 2070 and beyond

**Behind Barbed Wire** Deborah G. Lindsay, 2020 Most people associate concentration camps with Nazi Germany Behind Barbed Wire examines how these notorious World War II camps actually reflected a previous use of the system a system that began almost a century earlier In truth Adolf Hitler had studied the American Indian Reservations as he plotted his regime's attack on European Jews and other minorities Remarkably in the years between the reservations and the Nazi camps the United States along with several other Western powers implemented concentration camps throughout the globe each

instance employing more and more barbaric measures with harsher and harsher outcomes Behind Barbed Wire explains how these nations dubiously justified camp operations by citing military counterinsurgency tactics containment policies and simply the ability to prosecute war more easily This brief history addresses the subliminal reasons for relocating hundreds of thousands of civilians why the system became so prevalent and how concentration camps existed under the cover of armed conflict It argues that most often camps can be facilitated only under the guise of war Anyone with an interest in military history World War II concentration camps and the plight of the Jews will discover how all these topics converge into a compelling story of war bigotry and military might Behind Barbed Wire also sheds light on the concentration camp systems that have been employed since the fall of the Nazi dictatorship With current geopolitical issues focusing on elitism xenophobia deplorables terrorism and military necessity this book offers some understanding about the unintended consequences of policy
