Impact of Global University Ranking Systems on Developing Countries Onyancha, Omwoyo Bosire, Tella, Adeyinka, 2023-06-01 The emotive discourses on the subject of university rankings are directly linked to the effect of such rankings on the performance of universities throughout the world. It has been observed that the top ranked universities attract major financial commitments from the industry, the best students, quality researchers, and a wide range of other quality endowments such as equipment, libraries, and laboratories. It is not surprising that the ranking of universities has gained popularity and become a significant factor shaping not only the reputation of universities but also the performance of said institutions around the world, including the developing countries. *Impact of Global University Ranking Systems on Developing Countries* presents a collection of perspectives from scholars and other stakeholders on the impact of the global ranking systems on developing countries. The book is an additional resource for discussion and discourse as far as the global university ranking systems are concerned and opens new frontiers for further research. Covering key topics such as assessment, ethics, and academic freedom, this premier reference source is ideal for administrators, policymakers, researchers, scholars, academicians, practitioners, instructors, and students.

Responsibility of Higher Education Systems, 2020-06-29 The evolving societal, political, and economic landscape has led to increased demands on higher education institutions to make their contribution and benefits to society more visible, and in many cases, with fewer public resources. This book contributes to the understanding of the responsibilities of Higher Education and the challenges posed to the production and circulation of knowledge. It raises questions about the role of higher education in society, its responsibility towards students and staff, and regarding its intended impact. The book brings together a range of topical papers and a diversity of perspectives, scientific investigations of reputed scholars, critical evidence-based papers of third-space professionals and policymakers, perspectives on the daily practice and management of higher education institutions and systems. The variety of both content and contributors elevates the richness of the book and its relevance for a large audience. Contributors are Victor M. H. Borden, Lex Borghans, Bruno Broucker, Hamish Coates, Gwilym Croucher, Lisa Davidson, Mark Engberg, Philipp Friedrich, Martina Gaisch, Solomon Gebreyohans, Gebru Ton Kallenberg, Kathi A. Ketcheson, Lu Liu, Alfredo Marra, Clare Milsom, Kenneth Moore, Roberto Moscati, Marjolein Muskens, Daniela N. Internal migration and development planning in South Africa (Dr) Ilse Eigelaar-Meets, 2025-02-19 This scholarly book aims to illustrate the importance of incorporating internal migration data into development planning initiatives and processes to gain insight into both short and long-term social changes. This publication draws on census data pertaining to internal migration flows in the Northern Cape and Western Cape provinces of South Africa. The author analyses, compares, and presents data across three post-apartheid periods: 1996, 2001, 2006, and 2011, to illustrate how current forces drive and direct migration flows and how this impacts the

social dynamics within the two provinces This book highlights three significant shifts when comparing the two provinces pre and post 1994 internal migration trends First it examines the change in the political context framing mobility Second it explores the change in the types of internal migration flows sustaining urbanisation Third and lastly it analyses the changing profile of mobile migrants in the Northern Cape and Western Cape Internal migration and development planning in South Africa makes a compelling case for a strategic and coordinated approach by governments by demonstrating the influence of political and economic forces on internal migration flows and their impact on community social dynamics Such an approach is essential to address the increasing developmental constraints and challenges posed by internal migration in post apartheid South Africa

L. Calitz, 2018-08-06 Persistent educational economic and social inequalities perpetuate unequal participation in higher education for a significant number of students in both developing and developed contexts offering these students fewer opportunities to convert academic resources into equal participation Enhancing the Freedom to Flourish in Higher Education explores the insight that student narratives can offer to the debate surrounding the complex reasons of why some students flourish at university while others are marginalised socially and academically Proposing a new model of equal participation that draws not only on international comparisons but is also embedded in the experiences of students the book offers practical suggestions on how to enhance opportunities for equal participation Using South Africa as a case study the book tracks the experiences of eight undergraduate students whose narratives illuminate the structural inequalities affecting participation in higher education Despite the political economic and academic factors that lead to diminished participation the book foregrounds the resources that students used to negotiate obstacles and grounds these individual narratives in broader global debates around justice widening participation and equality in higher education Enhancing the Freedom to Flourish in Higher Education brings critical social theory to the problem of unequal participation so as to challenge the invisible and implicit forms of inequality found within student narratives It will appeal to lecturers and tutors practitioners based in student affairs and policy makers as well as postgraduate students

The Responsive University and the Crisis in South Africa, 2021-05-31 Around the world higher education is faced with a fundamental question what is the basis for our claim of societal legitimacy In this book the authors go beyond the classical response regarding teaching research and community engagement Instead the editor puts forward the proposition that the answer lies in responsiveness the extent to which universities respond or fail to respond to societal challenges Moreover because of its intractable legacy issues and crisis of inequality the question regarding the societal legitimacy of universities is particularly clearly manifested in South Africa one of the most unequal countries in the world The Responsive University brings together contributions on the issue of responsiveness from a number of international university leaders half of them specifically addressing the South African situation within the context of the international situation as presented by the other authors In the global discussion about the role of universities in society this book provides a conceptual framework for a way forward
