Jesus from Outer Space Richard Carrier,2020-10-20 The earliest Christians believed Jesus was an ancient celestial being who put on a bodysuit of flesh died at the hands of dark forces and then rose from the dead and ascended back into the heavens But the writing we have today from that first generation of Christians never says where they thought he landed where he lived or where he died The idea that Jesus toured Galilee and visited Jerusalem arose only a lifetime later in unsourced legends written in a foreign land and language Many sources repeat those legends but none corroborate them Why What exactly was the original belief about Jesus and how did this belief change over time In Jesus from Outer Space noted philosopher and historian Richard Carrier summarizes for a popular audience the scholarly research on these and related questions revealing in turn how modern attempts to conceal misrepresent or avoid the actual evidence calls into question the entire field of Jesus studies and present day beliefs about how Christianity began
