Saracens and the Making of English Identity Siobhain Bly Calkin, 2013-11-05 This book explores the ways in which discourses of religious racial and national identity blur and engage each other in the medieval West Specifically the book studies depictions of Muslims in England during the 1330s and argues that these depictions although historically inaccurate served to enhance and advance assertions of English national identity at this time The book examines Saracen characters in a manuscript renowned for the variety of its texts and discusses hagiographic legends elaborations of chronicle entries and popular romances about Charlemagne Arthur and various English knights In these texts Saracens engage issues such as the demarcation of communal borders the place of gender norms and religion in communities self definitions and the roles of violence and history in assertions of group identity Texts involving Saracens thus serve both to assert an English identity and to explore the challenges involved in making such an assertion in the early fourteenth century when the English language was regaining its cultural prestige when the English people were increasingly at odds with their French cousins and when English Welsh and Scottish sovereignty were pressing matters

The Old English Translation of Bede's Historia Ecclesiastica Gentis Anglorum in its Historical and Cultural Context Andreas Lemke, 2015 Did King Alfred the Great commission the Old English translation of Bede's *Historia Ecclesiastica Gentis Anglorum* probably the masterpiece of medieval Anglo Latin Literature as part of his famous program of translation to educate the Anglo Saxons Was the Old English *Historia* by any chance a political and religious manifesto for the emerging Kingdom of the Anglo Saxons Do we deal with the literary cornerstone of a nascent English identity at a time when the Anglo Saxon kingdoms were threatened by a common enemy the Vikings Andreas Lemke seeks to answer these questions among others in his recent publication He presents us with a unique compendium of interdisciplinary approaches to the subject and sheds new light on the Old English translation of the *Historia* in a way that will fascinate scholars of Literature Language Philology and History

The Arthur of the English W R J Barron, 2020-11-15 This first comprehensive treatment of Arthurian literature in the English language up until the end of the Middle Ages is now available for the first time in paperback English people think of Arthur as their own stamped on the landscape in scores of place names echoed in the names of princes even today Yet some would say the English were the historical Arthur's bitterest enemies and usurpers of his heritage The process by which Arthurian legends have become an important part of England's cultural heritage is traced in this book Previous studies have concentrated on the handful of chivalric romances which have given the impression that Arthur is a hero of romantic escapism This study seeks to provide a more comprehensive and insightful look at the English Arthurian legends and how they evolved It focuses primarily upon the literary aspects of Arthurian legend but it also makes some important political and social observations

The Culture of Translation in Anglo-Saxon England Robert Stanton,2002 Translation was central to Old English literature as we know it Most Old English literature in fact was either translated or adapted from Latin sources and this is the first full length study of Anglo Saxon translation as a cultural practice This culture of translation was characterised by changing attitudes towards English at first a necessary evil it can be seen developing increasing authority and sophistication Translation's pedagogical function already visible in Latin and Old English glosses flourished in the centralizing translation programme of the ninth century translator king Alfred and English translations of the Bible further confirmed the respectability of English while Ifric's late tenth century translation theory transformed principles of Latin composition into a
