Dead Zone Philip Lymbery, 2017-03-09 An honest compelling and important account and a critical plea for a fusion of farming food and nature to provide global ecological security CHRIS PACKHAM Why are so many animals facing extinction Climate change and poaching are not the only culprits The impact of consumer demand for cheap meat is equally devastating and it is vital that we confront this problem if we are to stand a chance of reducing its effect on the world around us We are falsely led to believe that squeezing animals into factory farms and cultivating crops in vast chemical soaked prairies is a necessary evil an efficient means of providing for an ever expanding global population while leaving land free for wildlife Our planet's resources are reaching breaking point awareness is slowly building that the wellbeing of society depends on a thriving natural world From the author of the internationally acclaimed Farmageddon Dead Zone takes us on an eye opening journey across the globe focussing on a dozen iconic species from elephants to bumblebees to penguins and looking at the role that industrial farming is playing in their plight **The Enchanting Encounter with the East** Michael

Baizerman, 2022-07-20 The Enchanting Encounter with the East belongs to cross cultural studies and focuses on the attempts of European literati to get acquainted with the bizarre realm of the Far East during the Late Middle Ages It turns out that western intellectuals lured by the marvels and myths of the Far East did a lot of spadework before taking a route that led to unfamiliar oriental realms On this thorny path many Eurocentric medieval fantasies had been debunked The book shows how global connections had surfaced centuries before industrialization The book falls into the genre of non fiction history and centers on the recognition of lands and cultures of India China and the Mongols by the Latin medieval society The storyline is based on the original online research and presents authentic arguments based on the author's engagement with the sources The readers might enjoy as well as profit from this comprehensive reference that does not require deep background knowledge The content is provided in clear language and is supplemented with a bibliography and illustrations that will enrich the entire work *London Journal of Medicine*, 1849 **Short Stories II** Gene Bushey, 2023-09-18 About the Book
