The Iron Claw A Conscripts Tale:

The Iron Claw Derek Halley,1998 There Was a Soldier Angus Konstam,2016-01-14 For hundreds of years the Scottish soldier has been recording his experiences From the War of the Spanish Succession until the deployment of regiments in Iraq Scottish soldiers have written home with tales of their exploits or had details of their experiences published in newspapers regimental histories and books The result is a wealth of primary information telling the story of the Scottish soldiers who fought in Europe America Africa India and the Far East Included in the collection are letters lyrics of songs and poems composed by the soldiers themselves highland anecdotes extracts from official reports and even typescripts of interviews This is the gritty real life story of the Scottish soldier told in his own words Eyewitness Korea James Goulty,2018-11-30 Today the Korean War of 1950 1953 is overshadowed by later twentieth century conflicts in Vietnam and the Middle East yet at the time it was the focus of international attention It threatened to lead to a third world war and although fought on a limited scale it still involved over a million men under UN command and even more on the Communist side It left the American and British troops who took part with a range of intense recollections that often marked them for the rest of their lives and it is these experiences that James Goulty draws on in this eyewitness history of the conflict He uses official documents letters diaries regimental histories memoirs oral histories and correspondence to show what the war was like for those who took part Their accounts vividly contrast the American and British experience as seen through the eyes of individual servicemen and they throw fresh light on the relations between the UN forces on their different attitudes tactics training and equipment and on the tensions that developed between them *The Black Watch* Victoria Schofield,2017-07-13 The heroic and inspiring story of the fortunes of the Black Watch whose soldiers have distinguished themselves in theatres of war across the world Formed into a regiment in 1739 and named for the dark tartan of its soldiers kilts The Black Watch has fought in almost every major conflict of nation and empire between 1745 and the present and has a reputation second to none Following on from *The Highland Furies* in which she traced the regiment's history to 1899 Victoria Schofield tells the story of The Black Watch in the 20th and 21st centuries She tracks its fortunes through the 2nd South African War two World Wars the troubles in N Ireland and the war in Iraq up to The Black Watch's merger with five other regiments to form the Royal Regiment of Scotland in 2006 Drawing on diaries letters and interviews Victoria Schofield weaves the many strands of the story into an epic narrative of a heroic body of officers and men In her sure hands the story of The Black Watch is no arid recitation of campaigns and battle honours but a rewarding account of the fortunes of war of a regiment that has played a distinguished role in British and world history *Fight, Dig and Live* George L. Cooper,2012-02-29 The Korean War which began with an unprovoked attack by North Korea in 1950 went on for three long years Over 100 000 soldiers of the United Nations forces including those of the Republic of Korea were killed and three times that number wounded United Kingdom casualties amounted to some 300 Officers and 4 000 Other Ranks The Royal Engineers deployed a Field Squadron to Korea in

the Autumn of 1950 and this was expanded to a Regiment the following year Involved in fierce fighting the Sappers suffered grievous casualties including 42 killed and several hundred wounded Their gallantry was rewarded by numerous gallantry awards including two DSOs thirteen MCs one by the author eight MMs and the most distinguished of all a Distinguished Conduct Medal second only to the Victoria Cross It was a vicious war whose intensity never slackened and in the last two months alone the Communist artillery fired over 700 000 rounds against 4 7 million fired back by the United Nations The Royal Engineers were involved at all levels from patrols and minefields to defense works and providing support to all manner of operations such as transportation bridging and the important provision of postal services so vital for morale Inevitably though the focus in that of a war like Korea is often on sapper participation in the forward area where they were often involved in close quarter fighting with the enemy Sappers certainly lived up to the title of this book Fight Dig and Live
