Renaissance painting how artists catered for an audience that desired to have gold brocades depicted but did not always possess the financial means to own the actual fabrics and what the skills artists developed in this field contributed to the rising social status of the medium of painting The material culture of the grand courts at which real gold brocade played an essential role in the display of wealth and status is compared to that of the socially ambitious but less affluent middle class for whom paintings were often the only affordable substitute for courtly splendour Thus the book also addresses the problem of the distinction between fact and fiction imagination and reality in the account of contemporary social history presented in paintings
