The Killing Compartments The Mentality Of Mass Murder:

The Killing Compartments Abram de Swaan, 2015-01-28 The twentieth century was among the bloodiest in the history of humanity Untold millions were slaughtered How people are enrolled in the service of evil is a question that continues to bedevil In this trenchant book Abram de Swaan offers a taxonomy of mass violence that focuses on the rank and file perpetrators examining how murderous regimes recruit them and create what De Swaan calls the killing compartments that make possible the worst abominations without apparent moral misgiving without a sense of personal responsibility and above all without pity De Swaan wonders where extreme violence comes from and where it goes seemingly without a trace when the wild and barbaric gore is over And what about the perpetrators themselves Are they merely and only the product of external circumstance Or is there something in their makeup that disposes them to become mass murderers Drawing on a wide range of disciplines including sociology anthropology political science history and psychology De Swaan sheds new light on an urgent and intractable pathology that continues to poison peoples all over the world *The Macabresque* Edward Weisband, 2018 Studies of genocide and mass atrocity most often focus on their causes and consequences their aims and effects and the number of people killed But if the main goal is death why is torture necessary By understanding how and why mass violence occurs and the reasons for its variations *The Macabresque* aims to explain why so many seemingly normal or ordinary people participate in mass atrocity across cultures and why such egregious violence occurs repeatedly through history *Perpetrators of International Crimes* Alette Smeulders, Maartje Weerdesteijn, Barbora Holá, 2019-02-07 Why would anyone commit a mass atrocity such as genocide crimes against humanity war crimes or terrorism This question is at the core of the multi and interdisciplinary field of perpetrator studies a developing field which this book assesses in its full breadth for the first time *Perpetrators of International Crimes* analyses the most prominent theories methods and evidence to determine what we know what we think we know as well as the ethical implications of gathering this knowledge It traces the development of perpetrator studies whilst pushing the boundaries of this emerging field The book includes contributions from experts from a wide array of disciplines including criminology history law sociology psychology political science religious studies and anthropology They cover numerous case studies including prominent ones such as Nazi Germany Rwanda and the former Yugoslavia but also those that are relatively under researched and more recent such as Sri Lanka and the Islamic State These have been investigated through various research methods including but not limited to trial observations and interviews Understanding Willing Participants, Volume 2 Nestar Russell, 2018-12-27 Horrified by the Holocaust social psychologist Stanley Milgram wondered if he could recreate the Holocaust in the laboratory setting Unabated for more than half a century his famous results have continued to intrigue scholars Based on unpublished archival data from Milgram's personal collection volume one of this two volume set introduces readers to a behind the scenes account showing how during Milgram's unpublished pilot studies he step by step invented his official experimental procedure

how he gradually learnt to transform most ordinary people into willing inflictors of harm The open access volume two then illustrates how certain innovators within the Nazi regime used the very same Milgram like learning techniques that with increasing effectiveness gradually enabled them to also transform most ordinary people into increasingly capable executioners of other men women and children Volume two effectively attempts to capture how step by step these Nazi innovators attempted to transform the Führer's wish of a Jewish free Europe into a frightening reality By the books end the reader will gain an insight into how the seemingly undoable can become increasingly doable

Freeman, Hanna Meretoja, 2023-05-02 This volume argues that narrative hermeneutics serves as a vitally important vehicle for addressing and redressing current social and political problems Hanna Meretoja and Mark Freeman have gathered an interdisciplinary group of esteemed authors to explore how interpretation is relevant to the current discussions in narrative studies and to the broader debate that revolves around issues of truth facts and narrative Addressing topics from the dangers of political narratives to questions of truth in medical and psychiatric practice they emphasize that narrative is a cultural meaning making practice that is integral to how we make sense of who we are and who we could be

Perpetrators Guenter Lewy, 2017-07-03 The Nazis attempt to annihilate the Jewish people the Holocaust continues to raise a disturbing question About six million defenseless men women and children were murdered for no reason but their ancestry How could such terrible deeds happen in the heart of Christian Europe and among a nation known for its poets and thinkers a people that had produced Schiller Goethe Bach and Beethoven That is the question Guenter Lewy seeks to answer in this book by drawing on previously untapped material including officers diaries letters written by soldiers and the record of the trials of hundreds of Nazi perpetrators in German courts

German Post-Socialist Memory Culture Amieke Bouma, 2025-10-01 After German unification former officers of the GDR state security service united with GDR professors and cultural managers to establish the East German Committee of Associations OKV On the basis of encompassing oral history into this complex web of interest organizations and memory clubs Bouma argues that these activists are driven by an epistemic nostalgia a longing for the time when their political understanding of the world was seemingly unchallenged Far from constituting a second life of the Stasi the main goal of OKV associations has been to validate the personal biographies of their activists against the now prevalent view that the GDR was a state of injustice While the OKV quickly adapted to the new legal procedures in post socialist Germany their staunch defence of the GDR heritage complicates their relation to SED successor party Die Linke and other radical left parties and associations even when they share practical goals Breaking new ground in the study of post socialist memory culture this book explains why former GDR cadres replicate GDR memory culture against their stigmatized status in unified Germany

War on Hate Henry Kopel, 2021-07-12 The UN outlawed genocide in 1948 and the United States launched a war on terror in 2001 yet still today neither genocide nor terrorism shows any sign of abating This book explains why those efforts have fallen short and identifies policies that can prevent such

carnage The key is getting the causation analysis right Conventional wisdom emphasizes ancient hatreds poverty and the impact of Western colonialism as drivers of mass violence But far more important is the inciting power of mass ideological hate propaganda this is what activates the drive to commit mass atrocities and creates the multitude of perpetrators needed to conduct a genocide or sustain a terror campaign A secondary causal factor is illiberal dualistic political culture this is the breeding ground for the extremist us vs them ideologies that always precipitate episodes of mass hate incitement A two tiered policy response naturally follows from this analysis in the short term several targeted interventions to curtail outbreaks of such incitement and in the long term support for indigenous agents of liberalization in venues most at risk for ideologically driven violence

Serbian Paramilitaries and the Breakup of Yugoslavia Iva Vukušić,2022-09-30 This is the first book to offer a comprehensive analysis of the emergence nature and function of Serbian paramilitary units during the violent breakup of Yugoslavia The book investigates the nature and functions of paramilitary units throughout the 1990s and their ties to the state and President Slobodan Milo evi The work relies on the archives of the International Criminal Tribunal for the former Yugoslavia in The Hague which conducted dozens of trials relating to paramilitary violence and records from judicial proceedings in the region It discusses how and why certain important paramilitary units emerged how they functioned and transformed through the decade what their relationships and entanglements were with the state the Milo evi regime and organized crime The study thus investigates the interrelated ideological political and social factors and processes fueling paramilitary engagement and assesses the impact of this engagement on victims of paramilitary violence and on the state and society for which the units purportedly fought It argues that coordinated action by a number of state institutions gave rise to paramilitaries tasked with altering borders while maintaining plausible deniability for the sponsoring regime The outsourcing of violence by the state to paramilitaries led to a significant weakening of the very state these units and their sponsors swore to protect The book also analyzes differences between the units and how they attacked civilians arguing that the different forms of violence stemmed not only from the function they fulfilled for the state but also the ways in which they were set up and operated The final chapter brings the different strands of the argument together into a coherent whole suggesting avenues for further research in the former Yugoslavia and beyond This book will be of much interest to students of ethnic conflict and civil war war crimes Balkan politics and International Relations in general
