Kybalion Hermetic Philosophy originally published in 1908 under the pseudonym of the Three Initiates is a book claiming to be the essence of the teachings of Hermes Trismegistus Since 1908 it has served as a study of basic hermetic teachings that outline an ageless wisdom In ancient times and even today these teachings were not understood by the lay person but were readily understood by students after the axioms and principles had been explained and exemplified by the Hermetic Initiates and Masters to their Neophytes The purpose of this work is not the enunciation of any special philosophy or doctrine but rather is to give to the students a statement of the Truth that will serve to reconcile the many bits of occult knowledge that they may have acquired but which are apparently opposed to each other and which often serve to discourage and disgust the beginner in the study Our intent is not to erect a new Temple of Knowledge but rather to place in the hands of the student a Master Key with which he may open the many inner doors in the Temple of Mystery through the main portals he has already entered

The Kybalion Lucas Fernando Sosa,2022-12-09 As a modern version of one of the greatest classics of esoteric literature this book is rich in symbolism with a narrative and visual manifestation that will mesmerise the reader Simultaneously simple and complex this work will help open wide the door of knowledge Each chapter is accompanied by an image whose graphic enigmatic and archetypal form artistically represents the infinite wisdom that the work possesses These optical illusions give the reader a better visualization of the universe and how immensely infinite it is in addition to how imperceptible it may be in the eyes of the human being

[The Kybalion](#) ,2006-10-01 He was the father of the occult the founder of astrology the discoverer of alchemy He was Hermes Trismegistus and as the scribe of the gods of ancient Egypt he possessed all divine knowledge which he passed on to humanity though only those who have been tutored in its wonders can fully understand it In this extraordinary 1912 book three secret initiates to his teachings who remain anonymous to this day share their insight with all who seek to understand the mysterious underpinnings of the universe and our relationship with it An appreciation of Hermeticism as the basis of all paranormal philosophies still studied today is an absolute must for anyone fascinated by magic the supernatural and the wisdom of the ancients

The Kybalion William Walker Atkinson,2019-01-09 The Kybalion Hermetic Philosophy is a book claiming to be the essence of the teachings of Hermes Trismegistus We take great pleasure in presenting to the attention of students and investigators of the Secret Doctrines this little work based upon the world old Hermetic Teachings There has been so little written upon this subject notwithstanding the countless references to the Teachings in the many works upon occultism that the many earnest searchers after the Arcane Truths will doubtless welcome the appearance of this present volume The purpose of this work is not the enunciation of any special philosophy or doctrine but rather is to give to the students a statement of the Truth that will serve to reconcile the many bits of occult knowledge that they may have acquired but which are apparently opposed to each other and which often serve to discourage and disgust the beginner in the study Our intent is not to erect a new Temple of Knowledge but rather to place in the hands of the student a Master Key with which he may open

the many inner doors in the Temple of Mystery through the main portals he has already entered There is no portion of the occult teachings possessed by the world which have been so closely guarded as the fragments of the Hermetic Teachings which have come down to us over the tens of centuries which have elapsed since the lifetime of its great founder Hermes Trismegistus the scribe of the gods who dwelt in old Egypt in the days when the present race of men was in its infancy Contemporary with Abraham and if the legends be true an instructor of that venerable sage Hermes was and is the Great Central Sun of Occultism whose rays have served to illumine the countless teachings which have been promulgated since his time All the fundamental and basic teachings embedded in the esoteric teachings of every race may be traced back to Hermes Even the most ancient teachings of India undoubtedly have their roots in the original Hermetic Teachings
