Hayao Miyazaki's World Picture Dani Cavallaro, 2015-03-16 Hayao Miyazaki has gained worldwide recognition as a leading figure in the history of animation alongside Walt Disney, Milt Kahl, Tex Avery, Chuck Jones, Yuri Norstein, and John Lasseter. In both his films and his writings, Miyazaki invites us to reflect on the unexamined beliefs that govern our lives. His eclectic body of work addresses compelling philosophical and political questions and demands critical attention. This study examines his views on contemporary culture and economics from a broad spectrum of perspectives, from Zen and classical philosophy and Romanticism to existentialism, critical theory, poststructuralism, and psychoanalytic theory.

The Chivalric Romance and the Essence of Fiction Dani Cavallaro, 2015-12-11 Ranging from Chretien de Troyes to Shakespeare, this study proposes that the chivalric romance is characterized by a centerless structure, self-conscious fictionality, and a propensity for irony. The form is tied to historical reality yet represents the archetype of imaginative literature, declaring its fictional status without claiming to embody fixed truths. Through use of irony, the chivalric romance precludes conclusive interpretations, inviting readers to inhabit multifold fantasy worlds while uncompromisingly showing that an ideal world is only a fiction. Thus, the reader is enjoined to confront the suspension of truth in their own lives.

J.W. Waterhouse and the Magic of Color Dani Cavallaro, 2017-02-19 English painter John William Waterhouse (1849-1917) communicates his aesthetic vision through his use of color. Throughout his career, he experimented with color as an element with seemingly spatial qualities. His works have an unusual formalism; figures and settings often appear not merely realistic but somewhat hyperreal. Yet paradoxically, Waterhouse's works border on the abstract, prioritizing chromatic features over content. They invite us to focus on colors and, through them, line, shape, texture, and rhythm in much the same way as works by

Kandinsky Klee Matisse or Pollock **Fantasy and Myth in the Anthropocene** Marek Oziwicz, Brian Attebery, Tereza Dedinová, 2022-02-24 The first study to look at the intersection of the discourse of the Anthropocene within the two highly influential storytelling modes of fantasy and myth this book shows the need for stories that articulate visions of a biocentric ecological civilization Fantasy and myth have long been humanity's most advanced technologies for collective dreaming Today they are helping us adopt a biocentric lens re-kin us with other forms of life and assist us in the transition to an ecological civilization Deliberately moving away from dystopian narratives toward anticipatory imaginations of sustainable futures this volume blends chapters by top scholars in the fields of fantasy myth and Young Adult literature with personal reflections by award winning authors and illustrators of books for young audiences including Shaun Tan Jane Yolen Katherine Applegate and Joseph Bruchac Chapters cover the works of major fantasy authors such as J.R.R. Tolkien Terry Pratchett J.K. Rowling China Miéville Barbara Henderson Jeanette Winterson John Crowley Richard Powers George R.R. Martin and Kim Stanley Robinson They range through narratives set in the UK USA Nigeria Ghana Pacific Islands New Zealand and Australia Across the chapters fantasy and myth are framed as spaces where visions of sustainable futures can be designed with most detail and nuance Rather than merely criticizing the ecocidal status quo the book asks how mythic narratives and fantastic stories can mobilize resistance around ideas necessary for the emergence of an ecological civilization **Interpreting**
