United States Yates's reputation grew as a master orator who stirred the suffrage spirit on campaign trails across the country. In 1920 the first year that women could campaign for office in Rhode Island she ran for the Democratic ticket for lieutenant governor earning 50 000 votes. She railed against jingoists like Theodore Roosevelt in the New York Times and chastised male political leadership for ignoring the lynching crisis. During her long career her suffrage sisters memorialized her as a prophet and a dreamer. Shannon M Risk draws on sources ranging from regional histories and shipping passenger manifests to archival papers at the Library of Congress and Yates's own writing to shed new light on this suffragist's life and work.

The United States Army in China, 1900-1938 Alfred Emile Cornebise, 2015-07-13 A study of U.S. Chinese relations involving the U.S. Army this work focuses at the personnel level on the Army's service in China. While studies have been published of the U.S. Marines and U.S. Navy's involvement in China little attention has been given the Army's missions in this theater. Operations in China were a key part of the history and traditions of the 9th 14th 15th and 31st Regiments whose coats of arms still feature dragons as symbols of their service there. Many who served in the 15th in China went on to impressive careers as general officers prompting one soldier to ask what other infantry regiment of those days can boast of such an alumni list. Also covered is the 31st Regiment's involvement in Shanghai during the Second Sino Japanese War the prelude of the coming of World War II in Asia.

History **Allies at the End of Empire** David M. Anderson, Daniel Branch, 2017-09-05 The wars of decolonization fought by
European colonial powers after 1945 had their origins in the fraught history of imperial domination but were framed and
shaped by the emerging politics of the Cold War In all the counter insurgencies mounted against armed nationalist risings in
this period the European colonial powers employed locally recruited militias styled as loyalists to fight their dirty wars These
loyalist histories have been neglected in the nationalist narratives that have dominated the post decolonization landscape and
this book offers the first comparative assessment of the role played by these allies at the end of empire Their experience
illuminates the deeper ambiguities of the decolonization story some loyalists were subjected to vengeful violence at liberation
others actually claimed the victory for themselves and seized control of the emergent state while others still maintained a
role as fighting units into the Cold War The overlap between the history of decolonization and the emergence of the Cold War
is a central theme in the studies presented here The collection discusses the categorization of these irregular auxiliary forces
after 1945 and presents seven case studies from five European colonialisms covering nine former colonies Portugal Angola
the Netherlands Indonesia France Algeria Belgium Congo and Britain Cyprus Kenya Aden South Yemen and Oman This book
was originally published as a special issue of the International History Review
