Tracing Invisible Lines David Prescott-Steed, 2019-02-28 TRACING INVISIBLE LINES is a critical autoethnographic text built around Gregory Ulmer's concept of the Mystory. Dedicated to the enhancement of imagination and innovation in a digital media saturated society, Ulmer's Mystory is a creative research method that draws narratives from three domains of discourse: personal, professional, and popular. Analysing these domains means generating fresh insight into the deep-seated emblems that drive the creative disposition or invariant principle of the practice-led researcher. Here the mystoriographical approach has mobilized an exploration of the interrelations between self and society, between memory and imagination as well as between industry-driven design, arts education and experimental sound art practice, prioritizing the sonic, the perambulatory, and the careering. As a result, the Mystory fosters critical awareness of the socio-cultural instruments of creative inspiration and perspiration. Reflexive in intent and experimental in approach, David Prescott Steed's hybrid writing style moves freely between art, historical, biographical and autobiographical, academic and speculative moods. This book's emphasis on an electronic, investigative, sound-based practice finds it treading new ground between the sonic arts and the field of electracy through its addition of sound and music to the genre. This book extends the scope of studies into Ulmer's work beyond English literature and the ocularcentric arts, offering a new handbook for sonic conceptual art practice.

Look Me in the Eye Caryl Wyatt, 2013-10-31 Caryl's story is a rare gift as it provides insight into an epidemic that brews behind closed doors in more homes than we would care to imagine. If statistics are accurate, the prevalence of abuse is much higher because domestic violence is notoriously under-reported: then up to 25% of the female population suffers abuse at home every week. In fact, as much as 80% of violence against women is at the hands of the men who supposedly love them. If we care at all for our humanity, society as a whole needs to take up Caryl's mantra of Abuse Is No Excuse. Few understand the nature or the power of abuse and why someone chooses to stay in an ongoing abusive relationship. However, in reading Caryl's story, she allows us to put ourselves in her place and we are left to wonder if we would have been able to do it any differently given her history and her reality. This is the gift that Caryl brings with her story and the honest way in which it is told; she makes it possible to move outside of ourselves and our own realities, judgments and prejudices so that we are able to walk the journey of another. This is a rare opportunity to truly live the life of a victim of abuse and to understand from a safe vantage point the powerlessness, hopelessness and desperation Caryl falsely believed she was powerless to leave. Out on the street with no money, without work and nowhere to go after a failed third marriage, she didn't make the choice to leave but she did make the choice to survive. Caryl chose to learn and understand the nature of domestic violence, its root and its cure. All addictions are one day at a time; journeys to recovery join Caryl on hers. Praise received for Look Me in the Eye: One of the best personal odyssey stories I have ever read. Dr Sam Vaknin, author of *Malignant Self Love*. Look Me in the Eye is a rare opportunity for us to truly live the life of a victim of Domestic Violence and to understand from a safe vantage point the powerlessness, hopelessness and desperation. Alison, author of *I Have Life*. About the Authors: CARYL WYATT was born in Rhodesia in 1950.

Dependent States Karen Sánchez-Eppler, 2005-09

Because childhood is not only culturally but also legally and biologically understood as a period of dependency it has been easy to dismiss children as historical actors. By putting children at the center of our thinking about American history Karen Sánchez-Eppler recognizes the important part childhood played in nineteenth century American culture and what this involvement entailed for children themselves. *Dependent States* examines the ties between children's literacy training and the growing cultural prestige of the novel, the way children functioned rhetorically in reform literature to enforce social norms, the way the risks of death to children shored up emotional power in the home, how Sunday schools socialized children into racial, religious, and national identities, and how class identity was produced not only in terms of work but also in the way children played. For Sánchez-Eppler nineteenth century childhoods were nothing less than vehicles for national reform. Dependent on adults for their care, children did not conform to the ideals of enfranchisement and agency that we usually associate with historical actors. Yet through meticulously researched examples Sánchez-Eppler reveals that children participated in the making of social meaning. Her focus on childhood as a dependent state thus offers a rewarding corrective to our notions of autonomous individualism and a new perspective on American culture itself.
