The Lively Arts of the London Stage, 1675-1725 Kathryn Lowerre, 2016-12-05 Unlike collections of essays which focus on a single century or whose authors are drawn from a single discipline this collection reflects the myriad performance options available to London audiences offering readers a composite portrait of the music drama and dance productions that characterized this rich period Just as the performing arts were deeply interrelated the essays presented here by scholars from a range of fields engage in dialogue with others in the volume The opening section examines a famous series of 1701 performances based on the competition between composers to set William Congreve's masque *The Judgment of Paris* to music The essays in the central section the mainpiece showcase performers and productions on the London stage from a variety of perspectives including English tastes in art and music the use of dance the depiction of madness and masculinity in both spoken and musical performances and genres and modes in the context of contemporary criticism and theatrical practice A brief afterpiece looks at comic pieces in relation to satire parody and homage By bringing together work by scholars of music dance and drama this cross disciplinary collection illuminates the interconnecting strands that shaped a vibrant theatrical world

The Practice of Satire in England, 1658-1770 Ashley Marshall, 2013-06-28 An exhaustive study of satire in the long eighteenth century Outstanding Academic Title Choice In *The Practice of Satire in England 1658-1770* Ashley Marshall explores how satire was conceived and understood by writers and readers of the period Her account is based on a reading of some 3 000 works ranging from one page squibs to novels The objective is not to recuperate particular minor works but to recover the satiric milieu to resituate the masterpieces amid the hundreds of other works alongside which they were originally written and read The long eighteenth century is generally hailed as the great age

of satire and as such it has received much critical attention. However scholars have focused almost exclusively on a small number of canonical works such as Gulliver's Travels and The Dunciad and have not looked for continuity over time. Marshall revises the standard account of eighteenth century satire revealing it to be messy, confused and discontinuous, exhibiting radical and rapid changes over time. The true history of satire in its great age is not a history at all. Rather it is a collection of episodic little histories.

The London Aphrodite Jack Lindsay, Percy Reginald Stephensen, 1928 **A handbook of Greek and Roman sculpture** Boston University prints, 1905 **Jacob Jordaens, His Life and Work** Max Rooses, 1908 **The London Magazine, Or, Gentleman's Monthly Intelligencer**, 1756 Satyr Drama George W. M. Harrison, 2005-12-31

The esteem in which satyr drama was held in antiquity still arouses curiosity and controversy. Twelve new papers generated in North America by a distinguished cast of scholars explore questions central to the genre. How did satyr drama relate to comedy and tragedy? how closely was it tied to its tragic trilogy? How did the Athenians react to pro satyric drama such as the Alcestis? How far did satyr plays reflect contemporary political life? Fresh conclusions are adduced from the fragments, particularly those of Aeschylus, and there is special study of Euripides' Cyclops, not least for its possible reflection of the fifth century sophists.

A Handbook of Greek and Roman Sculpture Edmund von Mach, 1905 **Treading the Bawds** Gilli Bush-Bailey, 2006-10-31

This book challenges the traditional boundaries that have separated the histories of the first actresses and the early female playwright. It brings the approaches of new histories and historiography to bear on old stories to make alternative connections between women working in the business of theatre. Drawing from feminist cultural materialist theories and historiographies, Bush Bailey analyses the collaboration between the actresses Elizabeth Barry and Anne Bracegirdle and women playwrights such as Aphra Behn. Mary Pix tracing a line of influence from the time of the first Theatres Royal to the rebellion that resulted in the creation of a players co-operative. This is a story about public and private identity fuelling profit at the box office and gossip on the streets and investigating how women's on and off stage personae feed each other in the emerging commercial world of the business of theatre.

The Etruscans can be shown to have made significant and in some cases perhaps the first technical advances in the central and northern Mediterranean. To the Etruscan people we can attribute such developments as the tie beam truss in large wooden structures, surveying and engineering, drainage and water tunnels, the development of the foresail for fast long distance sailing vessels, fine techniques of metal production and other pyrotechnology, post mortem C sections in medicine and more. In art, many technical and iconographic developments, although they certainly happened first in Greece or the Near East, are first seen in extant Etruscan works preserved in the lavish tombs and goods of Etruscan aristocrats. These

include early portraiture the first full length painted portrait the first perspective view of a human figure in monumental art specialized techniques of bronze casting and reduction fired pottery the bucchero phenomenon Etruscan contacts through trade treaty and intermarriage linked their culture with Sardinia Corsica and Sicily with the Italic tribes of the peninsula and with the Near Eastern kingdoms Greece and the Greek colonial world Iberia Gaul and the Punic network of North Africa and influenced the cultures of northern Europe In the past fifteen years striking advances have been made in scholarship and research techniques for Etruscan Studies Archaeological and scientific discoveries have changed our picture of the Etruscans and furnished us with new specialized information Thanks to the work of dozens of international scholars it is now possible to discuss topics of interest that could never before be researched such as Etruscan mining and metallurgy textile production foods and agriculture In this volume over 60 experts provide insights into all these aspects of Etruscan culture and more with many contributions available in English for the first time to allow the reader access to research that may not otherwise be available to them Lavishly illustrated *The Etruscan World* brings to life the culture and material past of the Etruscans and highlights key points of development in research making it essential reading for researchers academics and students of this fascinating civilization *The London Mercury* ,1928 ***The Journal of Hellenic Studies*** ,1926 *The Bibliographer's Manual of English Literature* William Thomas Lowndes,1864 ***The Eye of Greece*** Donna Kurtz,1982-09-16 An exploration of the subjects and problems in the art of Archaic and Classical Athens ***The Oxford Guide to Literature in English Translation*** Peter France,2000 Translation has been a crucial process in world culture over the past two millennia and more In the English speaking cultures many of the most important texts are translations from Homer to Beckett the Bible to Freud Although recent years have seen a boom in translation studies there has been no comprehensive yet convenient guide to this essential element of literature in English Written by eminent scholars from many countries the *Oxford Guide to Literature in English Translation* meets this need and will be essential reading for all students of English and comparative literature It highlights the place of translation in our culture encouraging awareness of the issues raised making the translator more visible Concentrating on major writers and works it covers translations out of many languages from Greek to Korean from Swahili to Russian For some works e g Virgil's *Aeneid* which have been much translated the discussion is historical and critical showing how translation has evolved over the centuries and bringing out the differences between versions Elsewhere with less familiar literatures the Guide examines the extent to which translation has done justice to the range of work available The Guide is divided into two parts Part I contains substantial essays on theoretical questions a pioneering outline of the history of translation into English and discussions of the problems raised by specific types of text e g poetry oral literature The second much longer part consists of entries grouped by language of origin some are devoted to individual texts e g the *Thousand and One Nights* or writers e g Ibsen Proust but the majority offer a critical overview of a genre e g Chinese poetry Spanish Golden Age drama or of a national literature e g Hungarian Scottish Gaelic There is a selective bibliography
