

ANSWER KEY – “THE MAKING OF THE FITNESS: NATURAL SELECTION AND ADAPTATION”

(Key Concept A) Define “mutation.”

A mutation is a change in an organism’s DNA sequence. Students may also mention that the change is random, but this is not necessary for a complete answer.

2. (Key Concepts A, B, and F) *Is the following statement true or false? Justify your answer in one or two sentences: “Mutations are caused by selective pressure in the environment.”*

False; the mutations discussed in this film occurred at random. (Mutations can be nonrandom, but they are not caused by selective pressure.) Students may also mention that environmental selective pressure acts on the phenotype that results from the mutations but does not cause the mutations or the phenotype to appear.

3. (Key Concepts B and G) *Is the following statement true or false? Justify your answer in one or two sentences: “The same mutation could be advantageous in some environments but deleterious in others.”*

True; the environment or selective pressure determines whether a mutation is beneficial.

4. (Key Concepts A, B, and F) *Is the following statement true or false? Justify your answer in one or two sentences: “The appearance of dark-colored volcanic rock caused the mutation for black fur to appear in the rock pocket mouse population.”*

False; selective pressure does not cause mutations but rather determines whether a mutation is advantageous or deleterious in a particular environment. Students may also mention that the dark-colored volcanic rock played a role in making dark-colored fur (and the corresponding alleles or mutations) favored, but this is not necessary for a complete answer. The Making Of The Fittest Natural Selection Answer Key

Marco Cascella

The Making Of The Fittest Natural Selection Answer Key:

Innovation in Cultural Systems Michael John O'Brien, Stephen Shennan, 2010 Leading scholars offer a range of perspectives on the roles played by innovation in the evolution of human culture In recent years an interest in applying the principles of evolution to the study of culture emerged in the social sciences Archaeologists and anthropologists reconsidered the role of innovation in particular and have moved toward characterizing innovation in cultural systems not only as a product but also as an evolutionary process This distinction was familiar to biology but new to the social sciences cultural evolutionists from the nineteenth to the twentieth century had tended to see innovation as a preprogrammed change that occurred when a cultural group needed to overcome environmental problems In this volume leading researchers from a variety of disciplines including anthropology archaeology evolutionary biology philosophy and psychology offer their perspectives on cultural innovation The book provides not only a range of views but also an integrated account with the chapters offering an orderly progression of thought The contributors consider innovation in biological terms discussing epistemology animal studies systematics and phylogeny phenotypic plasticity and evolvability and evo devo they discuss modern insights into innovation including simulation the random copying model diffusion and demographic analysis and they offer case studies of innovation from archaeological and ethnographic records examining developmental behavioral and social patterns Contributors Andr Ariew R Alexander Bentley Werner Callebaut Joseph Henrich Anne Kandler Kevin N Laland Daniel O Larson Alex Mesoudi Michael J O'Brien Craig T Palmer Adam Powell Simon M Reader Valentine Roux Chet Savage Michael Brian Schiffer Jeffrey H Schwartz Stephen J Shennan James Steele Mark G Thomas Todd L VanPool **Part of the Problem, Part of the Solution** Arvind Sharma, 2008-09-30 Part of the Problem Part of the Solution unleashes religion's true potential to do good by bridging the modern divide between religion and an ever pervasive secular society a notion often loathed by individuals on both sides of the religious aisle As noted scholars such as Huston Smith Karen Armstrong Rosemary Radford Ruether Harvey Cox and Seyyed Hossein Nasr explain throughout the conversations related in this text people of varied and conflicting faiths can come together to engage in civil useful dialogue and members of quite varied religious traditions can work together for the benefit of all humankind and can help defuse the world's current epidemic of violence By showing how religion is an instrument in human affairs that can be tuned for both good and evil this book lays the groundwork for an important cooperative effort to blossom Furthermore today's trend of associating all religion with suspicion has spiraled into a dangerous situation that in discarding all religion because some of it causes harm one risks throwing away the baby with the bathwater Books such as When Religion Becomes Evil by Charles Kimball The God Delusion by Richard Dawkins The End of Faith by Sam Harris Breaking the Spell Religion as a Natural Phenomenon by Daniel Dennett and God is Not Great How Religion Poisons Everything by Christopher Hitchens have created quite a sensation leaving the impression that religion at its root brings more heartache than handshakes This development has dismayed many scholars

students and practitioners of religion of all faiths who believe that only half the story the negative half is being told Although demonstrating that certain religious beliefs have surely contributed to the violence that has occurred in this century this book also explores how other religious teachings can help solve the epidemic of violence **The Evolution-Creation**

Struggle Michael RUSE, Michael Ruse, 2009-06-30 In his latest book Ruse uncovers surprising similarities between evolutionist and creationist thinking Exploring the underlying philosophical commitments of evolutionists he reveals that those most hostile to religion are just as evangelical as their fundamentalist opponents But more crucially and reaching beyond the biblical issues at stake he demonstrates that these two diametrically opposed ideologies have since the Enlightenment engaged in a struggle for the privilege of defining human origins moral values and the nature of reality
