Historical Archaeology of the Irish Diaspora Stephen A. Brighton, 2009 Between 1845 and 1852 a watershed event in Ireland's history the Great Hunger forced more than one million starved and dispossessed people most of them poor tenant farmers to leave their native country for the shores of the United States Further weakened by the arduous voyage across the Atlantic Ocean many sought refuge in the harbor cities in which they landed Not surprisingly Irish immigrants counted as one quarter of New York City's population during the 1850s In *Historical Archaeology of the Irish Diaspora* Stephen A. Brighton places Irish and Irish American material culture within a broad historical context including the waves of immigration that preceded the Famine and the development of the Irish American communities that followed it He meticulously details the archaeological research connected with excavations at two pre Famine sites in County Roscommon Ireland and with several immigrant tenements located in the Five Points Manhattan and the Dublin section of nearby Paterson New Jersey Using this transnational approach to link artifacts and ceramics found in rural Ireland with those discovered in sites in the urban northeastern United States Brighton also employs contemporary diaspora studies to illustrate how various factions sustained a distinct homeland connection even as the Irish were first alienated from and then gradually incorporated into American society With more than forty million Americans claiming Irish ancestry fully understanding Ireland's traumatic history and its impact on the growth of the United States remains a vital task for researchers on both sides of the Atlantic Brighton's study of lived experience follows a fascinating historical path that will aid scholars in a variety of disciplines

Paul Darby, David Hassan, 2013-10-18 Ireland and its inhabitants have often been described as being sports mad. As a relatively small geographical entity, Ireland north and south has produced a disproportionately high number of world class sports men and women who have excelled at the highest levels of their chosen sport. The significance of sport in Ireland though extends far beyond the achievements of such individuals. Sport has historically assumed a centrality in the lives of the island's inhabitants, a fact that can be measured by the numbers and commitment of participants as well as the emotional and financial investment of fans. This book seeks to address the ways in which Irish aptitude and ebullience for sport has manifested itself in those parts of the world that have or have had relatively large Irish communities. The first part of the book explores the diffusion of Gaelic games to a number of centres of Irish immigration and examines the social, economic, political and psychological impact that these games had in helping the Diaspora adjust to life in what were often inhospitable environs. The second part of the book extends the analysis by examining the contribution of Irish sports men and women to the sports culture that they encountered in their new homes and assessing the ways in which their involvement in these sports allowed them to come to terms with and make their way in their new locales. This book was previously published as a special issue of the journal *Sport in Society*. **The Irish Diaspora in Britain, 1750-1939** Donald MacRaild, 2010-11-24 This established study focuses on the most important phase of Irish migration, providing analysis of why and how the Irish settled in Britain in such numbers. Updated and expanded, the new edition now extends the coverage to 1939 and features new chapters on gender and the Irish diaspora in a global perspective. *Rethinking the Irish in the American South* Bryan Albin Gienza, 2013-04-20 A fresh look at a multifaceted minority culture.
