The Law of Civilization and Decay from Brooks Adams American historian and a critic of capitalism 1848 1927 **Harold Innis's History of Communications** William J. Buxton,Michael R. Cheney,Paul Heyer,2014-12-18 For decades media historians have heard of Harold Innis s unpublished manuscript exploring the history of communications but very few have had an opportunity to see it In this volume editors and Innis scholars William J Buxton Michael R Cheney and Paul Heyer make widely accessible for the first time three core chapters from the legendary Innis manuscript Here Innis 1894 1952 examines the development of paper and printing from antiquity in Asia through to 16th century Europe He demonstrates how the paper printing nexus intersected with a broad range of other phenomena including administrative structures geopolitics militarism public opinion aesthetics cultural diffusion religion education reception production processes technology labor relations and commerce as well as the lives of visionary figures Buxton Cheney and Heyer knit the chapters into a cohesive narrative and help readers navigate Innis s observations by summarizing the heavily detailed factual material that peppered the unpublished manuscript They provide further context for Innis s arguments by adding annotations references and pertinent citations to his other writings The end result is both a testament to Innis s status as a canonical figure in the study of communication and a surprisingly relevant contribution to how we might think about the current sea change in all aspects of social cultural political and economic life stemming from the global shift to digital communication *Rewriting the History of the Law of Nations* Paolo Amorosa,2019 In the interwar years James Brown Scott wrote a series of works on the history international law arguing that the foundation of modern international law rested with the 16th century Spanish theologian Francisco de Vitoria This book describes the Spanish origin project in context and explores its impact on international law as we know it today *The Prophets of Doom* Neema Parvini,2023-07-27 Linear and progressive views of history have dominated the popular imagination for the past seventy years in a worldview wedded to the inexorable rise of globalisation and GDP growth at any cost However the end of the Cold War failed to produce the end of history as hoped a fact brought home to many by Russia s invasion of Ukraine in 2022 Material wealth and Progress in the name of social justice have not made people happier or more united but quite the opposite Anxiety depression fearfulness sadness loneliness and anger have all massively increased since 1970 with the male suicide rate at an all time high Western society seems to be divided against itself across every line conceivable left versus right women versus men non whites versus whites globalists versus populists the elites versus the people people who think that men can be women and vice versa versus those who insist that they cannot and so on Seventy three percent of Americans believe their country is on the wrong track with similar views reflected in Britain and across Europe The Prophets of Doom explores eleven thinkers who not only dared to contradict the

dominant linear and progressive view of history but also predicted many of the political and social maladies through which we are living **Illustrated Catalogue of Books, Standard and Holiday** McClurg, Firm, Booksellers, Chicago, 1900
