The Logic Of God:

The Logic of God Incarnate Thomas V. Morris, 2001-04-06 This book is a philosophical examination of the logical problems associated with the claim that Jesus of Nazareth was one and the same person as God the Son the Second Person of the divine Trinity How can a being or person who is omniscient omnipotent omnipresent etc have become human given that humans are limited in knowledge and beset with weaknesses Unless this belief in the incarnation is to be dismissed as pious sentimentality a philosophical case must be made for at least the possible rationality of the idea Tom Morris makes such an attempt in this book Indeed although it claims only to be arguing that the idea of God Incarnate is not impossible The Logic of God Incarnate confronts the preponderance of modern philosophical argumentation against the incarnation and manages to put the traditional doctrine in a quite plausible light

The Logic of Idolatry in Seventeenth-century French Literature Ellen McClure, 2020 Idolatry was one of the dominant and most contentious themes of early modern religious polemics This book argues that many of the best known literary and philosophical works of the French seventeenth century were deeply engaged and concerned with the theme In a series of case studies and close readings it shows that authors used the logic of idolatry to interrogate the fractured and fragile relationship between the divine and the human with particular attention to the increasingly fraught question of the legitimacy of human agency Reading d Urf Descartes La Fontaine S vign Molire and Racine through the lens of idolatry reveals heretofore hidden aspects of their work all while demonstrating the link between the emergent autonomy of literature and philosophy and the confessional conflicts that dominated the period In so doing Professor McClure illustrates

how religion can become a source of interpretive complexity and how this dynamism can and should be taken into account in early modern French studies and beyond ELLEN MCCLURE is Associate Professor of History and French University of Illinois at Chicago

The Logic of the Unconscious Mind M. K. Bradby,1920 **The Logic of Events** Andrew Paul Ushenko,1929 The Logic of Divine Creation , **Systematic. The logic of practice** Shadworth Hollway Hodgson,1870

The Logic of God Samantha Berman,Ball State University. Department of English,2012 **The Logic of Hegel** Georg Wilhelm Friedrich Hegel,1904 **The Logic of "God".** T. P. Brown,1963 **The Logic of Death: Or, Why Should the Atheist Fear to Die?** George Jacob Holyoake,1874 **The Logic of Love** Andrew J. B. Cameron,2022-12-29

Overviewing what makes the intersection between emotion and ethics so confusing this book surveys an older wisdom in how to manage it using a range of Christian theologians and sources More important even than managing we begin to see a vision for a better set of affections to grow within and among us In this vision emerges a practical and nuanced account of what the Christian tradition sometime summarises as love How may we recover a deep affection for what matters both within ourselves and together in groups This book also dialogues with a new movement in moral psychology social intuitionism Cameron argues that researchers in this discipline have interests and conclusions that sometimes overlap with Christian sources even where their respective lenses differ In this way the book overviews recent trends in moral psychology against a recent historical and contemporary cultural backdrop whilst assaying major sources in Christian theology that offer guidance on moral psychology

The Incarnation of God Jacob Neusner,2001 Advancing his monumental study of formative Judaism further Jacob Neusner examines the notion of divine incarnations as a central element of the portrait of God that came into focus through the Judaism of the dual Torah In dealing with his concept which is obviously critical for Christian theology also Neusner shows how God was described in allusions and narratives as corporeal exhibiting traits of emotions like those of human beings and doing deeds that women and men do

The Silence of God during the Passion Daniel Bourguet,2016-08-03

God s silence during the passion is certainly a silence towards man but in particular God was silent towards Christ in his perfect and complete humanity It is also the silence of the Father towards the Son At first sight this silence is troubling and perhaps shocking suggesting that God is in fact absent However the author invites us to go beyond this first impression and the silence turns out to be of tremendous richness overwhelming depth and surprising beauty We are invited to refocus our attention and discover what the Father is saying in a completely new way These pages sing with love for God and our meditation of the passion narratives draws us into deep contemplation of the One they celebrate the Crucified

Coherence, Consonance, and Conversation S. Brian Stratton,2000 Coherence Consonance and Conversation focuses on one of the most intriguing areas in contemporary theology today the relationship between theology and natural science Stratton rejects approaches which see the two disciplines as hostile or irrelevant to each other and argues that theology philosophy and natural science should be viewed as members of an ongoing dialogue which eventually results in a continuous

world view Scholars and students of philosophy and theology will enjoy this interesting study Paul Ricœur, Philosophical Hermeneutics, and the Question of Revelation Christina M. Gschwandtner, 2024-01-08 The topic of revelation is fundamental to any account of religious experience playing a special role in the Judeo Christian tradition where the texts of Scripture are regarded as revealed Yet any reflection on the revealed status of a given message or text requires interpretation Paul Ricoeur one of the most important hermeneutic philosophers of the twentieth century provides crucial insights on how such interpretation might proceed and what it might mean for texts to be revealed Edited by Christina M Gschwandtner Paul Ricoeur Philosophical Hermeneutics and the Question of Revelation brings together major scholars of Ricoeur's work on the topic of revelation showing both the role it already plays in his work and how his thinking might be taken further Several contributors trace the development of his thought in regard to the concept of revelation Others discuss the revelatory dimensions of Ricoeur's hermeneutics of the self especially for such issues as identity trauma and forgiveness Several contributions also place his work in conversation with that of other seminal thinkers on the topic of revelation such as Karl Barth and Paul Tillich In Defense of Miracles R. Douglas Geivett, Gary R. Habermas, 2025-10-16 Rumors of deception have surrounded claims of Jesus' resurrection ever since the soldiers appointed to guard his tomb made their report to the Jewish authorities But no one has led the philosophic charge against miracles quite as influentially as David Hume with his 1748 essay *Of Miracles* Refined revised restated his arguments still affect philosophic discussions of miracles today During the twentieth century strong arguments have been raised by Antony Flew professor emeritus at Keele University in England Flew has contributed a fresh statement of his objections to the idea of God's acting in history just for this volume which also includes Hume's classic critique as a part of the case against miracles In response Douglas Geivett and Gary Habermas have assembled a distinguished team of scholars to rebut the objections and set forth the positive case for God's action in history Richard Purtill clarifies the word miracle while Norman Geisler critiques Hume's case against miracles Francis Beckwith and Winfried Corduan assess how we would recognize miracles in the past and in the present Ronald Nash examines naturalism's exclusion of miracles and shows its self-referential incoherence J P Moreland discusses whether science properly rules out the possibility of miracles God's existence and action in history are probed by David Beck and Stephen Davis while Douglas Geivett argues that within a theistic framework it is reasonable to expect miracles as confirmation of claims to special revelation David Clark examines miracles within the context of various world religions Robert Newman John Feinberg William Lane Craig and Gary Habermas conclude by investigating fulfilled prophecy the virgin birth and incarnation of Jesus the empty tomb and the resurrection appearances *In Defense of Miracles* is a comprehensive up to date discussion that should not be overlooked by anyone concerned with the current debate over miracles **The Logic of a Lifetime** Anna M. Longshore Potts, 1911 **The Logic of His Love** Francois Du Toit, 2013-04 The word theology means the Logic of God God does not expect us to respond in an unintelligent way to the greatest revelation of knowledge and understanding that man

could possibly perceive nor to remain in a haze of confusion concerning our origin our identity our eternal destiny and our present standing before him He has made it possible for us to come into the same understanding to enjoy an equal appreciation of that which he himself enjoys True companionship only makes sense in an environment of mutual compatibility The mission of Jesus was not to add to the mystery of Deity but to bring absolute clarity regarding the person of God as the Father of the human race If you have seen me you have seen the Father Any idea that we could have had of God that is unlike Jesus would not be true about God In Jesus the forgotten Father of the human race introduces himself again as our only true Father Eph 4 5 There is only one faith Not what we believe about God but what God believes about us Eph 4 6 There is only one God He remains the ultimate Father of the universe We are because he is He is present in all he is above all through all and in all He is not far from each one of us in him we live and move and have our being We are indeed his offspring Acts 17 24 28

God's Autopsy and the Living Truth of Soul Hal Childs, 2022-08-22 The Grand Narrative of Christianity that the Bible created is dead and the Bible is silent Does the Bible have anything relevant to say to our modern circumstances We ask where did God come from What happened to God God's Autopsy reinterprets soul and God as historical psychological phenomena related to the cultural structure of consciousness the invisible shared context of thought which has changed dramatically over the past three millennia This book offers a new way to understand the trajectory of Western civilization by making the implicit foundation of Western consciousness soul visible and conscious Our modern Western consciousness is radically different from that of antiquity when the Bible emerged Jung's psychological philosophical insight that whenever we speak about the psyche it is the psyche speaking about itself leads to the realization that today consciousness has come home to itself Beginning with preliterate polytheism the emergence of the transcendent god Yahweh and Christ which led directly to the Enlightenment objective soul continues to unfold itself How did late modernity become a topsy turvy quantum virtual digital impersonal and abstract world that appears to be running away from us The answer is unexpectedly and shockingly in the Bible itself
