characterized by a projection of emotional values onto objects modernism highlights a more latent component of object fetishism the fascination with the alterity of matter variously inflected by Proust Woolf Joyce Barnes and Mann The last turning point in Fusillo s analysis is postmodernism and its obsession with mass media icons from DeLillo s maximalist frescos and Zadie Smith s reflections on autographs to Palahniuk s porn objects from pop art to commodity sculpture

British Books ,1846 The Magic of Yggdrasill Yves Kodratoff,2020 This book took its start with the author s realization that what Old Norse calls magic can be understood as unconscious as stated by C G Jung we find magical means everything where unconscious influences are at work This book reveals the existence of several Norse words specifically dedicated to magic as are sk p for instance and it details the magic they carry with them In our modern civilization these skop still exist but their magical nature is no longer obvious though this point can be disputed Once this magic is discovered and acknowledged it becomes possible to infer from Norse poetry the existence and handling of unconscious archetypes within its associated myths A few of them have been analyzed in detail and this enabled us to better understand some surprising traits of this mythology up to detecting magical spells imbedded within Norse poetry they are usually dubbed as Galdralag The book ends by sending to the readers a positive of such spells by which Odinn self increased his thoughts and deeds as given in Havamal The book aims at four logically connected targets 1 spotting Poetic Edda stanzas using a vocabulary calling upon magic for improving our knowledge of ancient Norse magic 2 checking that no convincing proof of Christian influences on Poetic Edda had been provided by the academic community 3 spotting a few images of Old Norse unconscious archetypes and 4 finding a few typical instances of the Eddaic meter called Galdralag incantation meter **Demonology and**
