South African Air Force Application For 2015:

, *Military Psychology for Africa* Gideon Van Dyk, 2016-03-17 Military Psychology for Africa is the first textbook of its kind from Africa. Selected authors with competent military psychology knowledge, skills, expertise, and experience each contributed a chapter to this unique book. The book empowers academics, students, and military fellows to apply this knowledge at academic institutions and military units during operations and in presenting short courses. The book will also equip soldiers with new knowledge for advancing peace on the continent and abroad. **War of Intervention in Angola** Adrien Fontanellaz, José Matos, Tom Cooper, 2020-11-23 War of Intervention in Angola Volume 3 covers the air warfare during the II Angolan War fought 1975-1992 through narrating the emergence and operational history of the Angolan Air Force and Air Defence Force FAPA DAA as told by Angolan and Cuban sources. Most accounts of this conflict, better known in the West as the Border War or the Bush War, as named by its South African participants, tend to find the operations by the FAPA DAA barely worth mentioning. A handful of published histories mention two of its MiG 21s claimed as shot down by Dassault Mirage F 1 interceptors of the South African Air Force SAAF in 1981 and 1982 and at least something about the activities of its MiG 23 interceptors during the battles of the 1987-1988 period. On the contrary, the story told by Angolan and Cuban sources not only reveals an entirely different image of the air war over Angola of the 1980s; indeed, it reveals to what degree this conflict was dictated by the availability or the lack of air power and shows that precisely this issue dictated the way that the commanders of the Cuban contingents deployed to the country, whether as advisors or as combat troops, planned and conducted their operations. It is thus little surprising that the first contingent of Cuban troops deployed to Angola during Operation Carlota in late 1975 included a sizeable group of pilots and ground personnel who subsequently helped build up the FAPA DAA from virtually nothing. They continued that work over the following 14 years, sometimes in cooperation of Soviet advisors and others from East European countries, eventually establishing an air force that by 1988 maintained what South African military intelligence and the media subsequently described as the most advanced air defense system in Africa. Not only the air defense system in question, but also the aircraft serving as its extended arms, ultimately managed a unique feat in contemporary military history: they enabled an air force equipped with Soviet-made aircraft and trained along the Soviet doctrine to establish at least a semblance of aerial superiority over an air force equipped with Western-made aircraft and operating under a Western doctrine. Based on extensive research with help of Angolan and Cuban sources, the War of Intervention in Angola Volume 3 traces the military build-up of the FAPA DAA in the period 1975-1992, its capabilities, and its intentions. Moreover, it provides a unique blow-by-blow account of its combat operations and experiences. The volume is illustrated with 100 rare photographs, half a dozen maps, and 15 color profiles, thus providing a unique source of reference on this topic. *Air Power in the Indian Ocean and the Western Pacific* Howard M. Hensel, 2020-06-04 This book examines the security dynamics of the Indian Ocean and the Western Pacific, concentrating upon an analysis and evaluation of the air

power capabilities of the various powers active in the two regions The volume is designed to help improve understanding of the heritage and contemporary challenges confronting the global community in the Indian Ocean and the Western Pacific as well as to illuminate the policies of the various powers involved in the affairs of these regions and the military capabilities that are available in support of those policies The 16 individual chapters examine both the traditional and the non traditional threats that confront the various Indian Ocean and Western Pacific powers and assess the roles played by land based and naval fixed wing and rotary wing manned and unmanned aircraft as well as by offensively and defensively capable ballistic and cruise missiles in addressing these challenges In doing so the various chapters analyze and evaluate the air power doctrine capabilities deployment patterns and missions of the respective states In addition they assess the future issues challenges and responses involving air power as it acting in concert with other military instruments seeks to contribute to securing and promoting the interests of the state This book will be of much interest to students of air power strategic studies Asian and Middle Eastern politics and International Relations

Reimagining Nigeria's Educational System Joseph A. Balogun,2023-09-20 This book assesses the challenges within the Nigerian educational system and provides a concrete plan to revitalize the low performing system by strengthening high stakes testing at all levels In Nigeria many citizens believe that the solution to the country s low performance in education is to eliminate high stakes standardized testing High stakes testing refers to applying standardized

student achievement tests as a primary mechanism to evaluate students teachers and their school s performance This book argues that the poor quality of education and low ranking of Nigeria s educational system is not related to the negative consequences of high stakes testing but rather is due to many intrinsic factors By conducting a comparative analysis of six high performing education systems worldwide the book offers a comparative summative evaluation of the educational system and offers recommendations This book will be of interest to policymakers and scholars in the fields of African education higher education quality and global studies African studies management and administration leadership and professional development studies Joseph Abiodun Balogun is former Dean and retired Distinguished University Professor at the College of Health Sciences Chicago State University USA Visiting Professor Program Consultant at the Centre of Excellence in Reproductive Health Innovation University of Benin Nigeria and President CEO Joseph Rehabilitation Center Tinley Park Illinois USA
