Prize-essays and Transactions of the Highland and Agricultural Society of Scotland Royal Highland and Agricultural Society of Scotland, Edinburgh, 1851 *The Writ of the Three Sovereigns* Dominic Steavu, 2019-09-30 In 648 CE Tang imperial authorities collected every copy of the Writ of the Three Sovereigns Sanhuang wen from the four corners of the empire and burned them The formidable talismans at its core were said not only to extend their owners lifespan and protect against misfortune but also propel them to stratospheric heights of power elevating them to the rank of high minister or even emperor Only two or three centuries earlier this controversial text was unknown in most of China with the exception of Jiangnan in the south where it was regarded as essential local lore In the span of a few generations the Writ of the Three Sovereigns would become the cornerstone of one of the three basic corpora of the Daoist Canon a pillar of Daoism and a perceived threat to the state This study the only book length treatment of the Writ of the Three Sovereigns in any language traces the text's transition from local tradition to empire wide institutional religion The volume begins by painting the social and historical backdrop against which the scripture emerged in early fourth century Jiangnan before turning to its textual history It reflects on the work's centerpiece artifacts the potent talismans in celestial script as well as other elements of its heritage namely alchemical elixirs and true form diagrams During the fifth and sixth centuries with Daoism coalescing into a

formal organized religion the Writ of the Three Sovereigns took on a symbolic role as a liturgical token of initiation while retaining its straightforward language of sovereignty and strong political overtones which eventually led to its prohibition The writ endured however and later experienced a revival as its influence spread as far as Japan Despite its central role in the development of institutional Daoism the Writ of the Three Sovereigns has remained an understudied topic in Chinese history Its fragmentary textual record combined with the esoteric nature of its content have shrouded it in speculation This volume provides a lucid reconstruction of the text s hidden history and enigmatic practices while shedding light on its contributions to the religious landscape of medieval China The Farmer's Magazine ,1860 *British Farmer's Magazine* ,1833 **The Coronation Book; Or, The Hallowing of the Sovereigns of England** Jocelyn Perkins,1902 **The Right of Sovereignty** Daniel Lee,2021 This book examines the origins of the principle of sovereignty in the legal and political thought of its most influential theorist Jean Bodin It explores Bodin s creative synthesis of classical sources in philosophy history and the medieval legal science of Roman and canon law in crafting the rules governing state centric politics

Transactions of the Highland and Agricultural Society of Scotland Royal Highland and Agricultural Society of Scotland,1851 **Restrictive and Anticompetitive Practices in the Eyeglass Industry** United States. Congress. Select Committee on Small Business. Subcommittee on Monopoly and Anticompetitive Activities,1977 *Covid, Biopolitics and the Suspension of the Nomos* William Watkin,2025-06-20 This book considers how during the unprecedented global lockdown due to the Covid 19 pandemic the normal order of everyday life of the rule of law of power itself was interrupted and hence the nomos of this earth was suspended Employing the term herd immunity from vaccination science and global lockdown policy as a guiding theme the book considers two central aspects of the pandemic These are the function of herding and collecting as a definition of ontology after Alain Badiou and the concept of immunity as a suspension of oppositional differences in the work of Roberto Esposito It then considers how herd immunity not only disrupts the nomos but also suspends its significance as a guiding principle of state sanctioned legal norms and perhaps permanently Providing critical readings of masking social distancing compliance vulnerability bubbles immunity breathing anti vaxxers nudge theory cocooning lockdown patient zero and the many other terms that became commonplace between 2020 and 2022 the book traces a suspension of legal and social norms a manipulation of our compliance using false science and a reconfiguring of the social nomos in light of the threats of the virus In a highly original mix of contemporary and post war continental philosophy biopolitical theory set theoretical mathematics extensional logic and the most up to date science in the area it argues that lockdown was not some global biopolitical power grab but actually a weakening of power of nomos This book will appeal to scholars and others in a range of disciplinary areas with interests in the legacy of Covid but especially those working in the areas of continental philosophy contemporary legal theory and biopolitics *Prices and Wages* Percy Wallis,Albert Wallis,1921 **Gold Seeker's Manual** George Butler Earp,1852 **British Battleships 1919-1945** R A Burt,2012-02-28
