that shaped the American book trade paying particular attention to the contributions of the German bookseller Frederick Leyboldt and his journal Publishers Weekly Unlike many studies of the book business How Books Came to America is more concerned with business than it is with books Its focus is on how books are manufactured and sold rather than how they are written and read It is nevertheless the story of the people who created and influenced the book business in the colonies and the United States Famous names in the American book trade Benjamin Franklin Robert Hoe the Harpers Henry Holt and Melvil Dewey are joined by more obscure names like Joseph Glover Conrad Beissel and the aforementioned Frederick Leyboldt Together they made the American book trade the unique commercial institution it is today
