The Last Supper on the Moon Levi Lusko,2022-01-11 If there are places in your heart and corners of your mind that feel just as deep and dark and inaccessible as outer space this book is for you Fight as you may unearthing the happiness and fulfillment you long for can feel nearly impossible In Psalm 8 David urges us to consider the heavens to look up at the night sky Doing so will help you discover fundamental truths about God Namely that even though his love for you is as beyond comprehension as the farthest corners of the universe through his Son you can grab hold of it and it has the power to transform your inner space Bestselling author Levi Lusko shares how you can learn that life is not about finding yourself but discovering who Jesus is believe that God s love and forgiveness is grander than even your greatest failure buck the mundane of everyday life and start dreaming again Embark on an adventure tracing the words and wonders of Jesus on his trek to the cross Let The Last Supper on the Moon compel you to live with a more profound sense of purpose and a grander view of Jesus and set you on a trajectory to life and life more abundantly *Historical Dictionary of Westerns in Literature* Paul Varner,2010-09-20 When in 1902 Owen

The Graphic Novel Jan Baetens, 2001 The essays collected in this volume were first presented at the international and interdisciplinary conference on the Graphic Novel hosted by the Institute for Cultural Studies University of Leuven in 2000 The issues discussed by the conference are twofold Firstly that of trauma representation an issue escaping by definition from any imaginable specific field Secondly that of a wide range of topics concerning the concept of visual narrative an issue which can only be studied by comparing as many media and practices as possible The essays of this volume are grouped here in two major parts their focus depending on either a more general topic or on a very specific graphic author The first part of the book Violence and trauma in the Graphic Novel opens with a certain number of reflections on the representation of violence in literary and visual graphic novels and continues with a whole set of close readings of graphic novels by Art Spiegelman Maus I and II and Jacques Tardi whose masterwork *C'est la guerre des tranchées* is still waiting for its complete English translation The second part of the book presents in the first place a survey of the current graphic novel production and insists sharply on the great diversity of the range in the various continental traditions for instance underground comix and feminist comics high art graphic novels critical superheroes fiction whose separation is nowadays increasingly difficult to maintain It continues and ends with a set of theoretical interventions where not only the reciprocal influences of national and international traditions but also those between genres and media are strongly forwarded the emphasis being here mainly on problems concerning ways of looking and positions of spectatorship
