Heroes in Contemporary British Culture Barbara Korte, Nicole Falkenhayner, 2021-05-13 This book explores how British culture is negotiating heroes and heroisms in the twenty-first century. It posits a nexus between the heroic and the state of the nation and explores this idea through British television drama. Drawing on case studies including programmes such as *The Last Kingdom*, *Spooks*, *Luther*, and *Merlin*, the book explores the aesthetic strategies of heroisation in television drama and contextualises the programmes within British public discourses at the time of their production, original broadcasting, and first reception. British television drama is a cultural forum in which contemporary Britain's problems, wishes, and cultural values are revealed and debated. By revealing the tensions in contemporary notions of heroes and heroisms, television drama employs the heroic as a lens through which to scrutinise contemporary British society and its responses to crisis and change. Looking back on the development of heroic representations in British television drama over the last twenty years, this book's analyses show how heroisation in television drama reacts to and reveals shifts in British structures of feeling in a time marked by insecurity. The book is ideal for readers interested in British cultural studies, studies of the heroic, and popular culture. Barnhouse, Winston Black, 2023-06-01 Medievalism and medieval medicine are vibrant subfields of medieval studies, enjoying sustained scholarly attention and popularity among undergraduates. Popular perceptions of medieval medicine, however, remain understudied. This book aims to fill that lacuna by providing a multifaceted study of medical medievalism defined as modern representations of medieval medicine intended for popular audiences. The volume takes as its starting point the fictional medieval detective Brother Cadfael, whose observations on bodies, herbs, and death have shaped many popular conceptions of medieval medicine in the Anglophone world. The ten contributing authors move beyond Cadfael by exploring global medical medievalisms in a range of genres and cultural contexts. *Beyond Cadfael* is organized into three sections, the first of which engages with how disease, injury, and the sick are imagined in fictitious medieval worlds. The second, on doctors at work, looks at medieval medical

practice in novels films and television and public commemorative practice These essays examine how practitioners are represented and imagined in medieval and pseudo medieval worlds The third section discusses medicine designed for and practiced by women in the Middle Ages and today with a focus on East Asian medical traditions These essays are guided by the recognition that medieval medical practices are often in dialogue with contemporary medical practices that fall outside the norms of Western biomedicine
