Frank Dikötter, 2017-06-06 The concluding volume following Mao's Great Famine and The Tragedy of Liberation in Frank Dikötter's award-winning trilogy chronicling the Communist revolution in China. After the economic disaster of the Great Leap Forward that claimed tens of millions of lives from 1958-1962, an aging Mao Zedong launched an ambitious scheme to shore up his reputation and eliminate those he viewed as a threat to his legacy. The Cultural Revolution's goal was to purge the country of bourgeois capitalistic elements he claimed were threatening genuine communist ideology. Young students formed the Red Guards, vowing to defend the Chairman to the death, but soon rival factions started fighting each other in the streets with semiautomatic weapons in the name of revolutionary purity. As the country descended into chaos, the military intervened, turning China into a garrison state marked by bloody purges that crushed as many as one in fifty people. The Cultural Revolution: A People's History, 1962-1976, draws for the first time on hundreds of previously classified party documents, from secret police reports to unexpurgated versions of leadership speeches. After the army itself fell victim to the Cultural Revolution, ordinary people used the political chaos to resurrect the market and hollow out the party's ideology. By showing how economic reform from below was an unintended consequence of a decade of violent purges and entrenched fear, The Cultural Revolution casts China's most tumultuous era in a wholly new light. **Professional Sound Reinforcement**

Techniques Jim Yakabuski, 2001 This witty and informative book demonstrates the finer points of live sound mixing from the perspective of an industry veteran with a proven track record. Through his easy-to-understand tips, readers will learn the secrets that Yakabuski used to make Van Halen, Aerosmith, Julio Iglesias, and others sound great. Professional Sound Reinforcement Techniques gives unique insight into a wide variety of general and specific live sound topics, from PA system setup and band politics to zone equalization and signal processing. Everyone's History John H. Chambers, 2008-10-16 The book's structure blends history and geography. A good world atlas or a world historical atlas will be helpful in the reading. The historical arrangement of contents has six Parts: Classical, Mediaeval, Early Modern, Lands, Early Modern Ideas, Late Eighteenth and Nineteenth Centuries, Twentieth Century. Although this sequence of periods and categories fits Western European history best, it is also reasonably appropriate for Central Asia, India, and China. For other regions, it is more arbitrary, and Classical and Mediaeval periods are merged. Because the Parts overlap and involve imprecise categories, in the List of Contents and Summaries no attempt is made to give dates for their beginning and end. *Sixties Europe* Timothy Scott Brown, 2020-08-06 *Sixties Europe* examines the border-crossing uprisings of the 1960s in Europe on both sides of the Cold War divide. Placing European developments within a global context formed by Third World liberation struggles and Cold War geopolitics, Timothy Scott Brown highlights the importance of transnational exchanges across bloc boundaries. New Left ideas and cultural practices easily crossed bloc boundaries, but Brown demonstrates that the 1960s in Europe did not simply unfold according to a normative western model. Everywhere, innovations in the arts and popular culture synergized radical politics, as advocates of workers' democracy emerged to pursue longstanding demands predating the Cold War divide. Tracing the

development of a distinctive blend of cultural and political activism across diverse national settings Sixties Europe examines an important historically recent attempt to address unresolved questions about human social organization that remain relevant in the present and it offers an original history of Europe across a transformative decade **Quarterly Index of Additions to the Milwaukee Public Library** Milwaukee Public Library, 1896 **Socialism and Communism** John Murphy, 2014-07-15 The story of socialism and communism is a saga of idealism and cynicism revolution and repression power and powerlessness The entire political and economic history of the modern era is contained in this account forming a detailed and lively panorama The world is still grappling with age old questions regarding governance equality justice and freedom As this enthralling text details so vividly socialism and communism attempted to answer these questions definitively In that they failed but in doing so they highlighted the importance of the questions themselves and of the ordinary people whose lives hang in the balance waiting for answers **Nobody in Charge** Harlan Cleveland, 2002-07-10 One of the most renowned thinkers and insightful writers on leadership of our time Harlan Cleveland has seen numerous trends come and go and weathered many drastic changes in leadership and management from the rise of the company man to the advent of the leaderless self managed organization In this collection of essays the newest addition to the Warren Bennis Signature Series he draws on his vast experience to apply his thoughts to leadership In each essay Cleveland focuses on an intriguing insight about leadership illustrated by stories from his own experience offering thoughtful perspective on what 21st century leaders will face in the new knowledge environment
