The Genesis Revelation Connection: the Scroll Anthony Lyle, 2018-09-05 This is a combination of commentary on Genesis and Revelation and how they are tied together by the Jubilee Year in the Bible and by the deed to the earth scroll in Revelations This book will explain how the plan of God was to free us from the enslavement of Satan through history and how God has always been forthright in revealing his plans for mankind as opposed to a common belief that God has shrouded the history in mysteries It includes many world history events that are not included in the Bible to pull together a full understanding of the history of mankind from the perspective of God Included are items from archaeology that verify and validate the Bible as a history It gives a brief interpretation of the coming years of Revelation from a world perspective Included are viewpoints from other researchers as well such as Velikovsky David Rohl and George Roux The intent is to give a variety of sources so that the reader can come to their own conclusions *The Lilith Scroll* B. Brown, 2007-07-01 The book of Lilith tells the real story of creation Lilith is the first human to be given a soul by God following a thirteen billion year process of mechanical soulless evolution Her job is to give souls to all things and awaken them to the Watcher that watches the watcher watching the world The first person she grants a soul to is Adam who is given a job of his own to invent the definition of sin create a moral sense in a world that utterly lacks one and hence bring about the rule of law in a compassionate society Unfortunately Adam has a hard time accepting the fact that he was given his soul second instead of first and by Lilith not God The conflict this engenders leads to the destruction of Eden the creation of Eve and a voyage of self discovery that spans a world P 4 of cover The Lilith Scroll B. The Many Faces of Adam and Eve Bernard F. Batto,2022-02-17 Contrary to popular opinion the story of Adam and Eve is not confined to the book of Genesis It has roots in prebiblical myth and continued to evolve long after the Bible was completed Bernard F Batto traces the development of the Adam and Eve story from its origins in Mesopotamian myth to its reformulation in Genesis and beyond including its expansion in Jewish epigraphs such as 1 Enoch and the Life of Adam and Eve and its place in Christian innovations such as the apostle Paul s thesis that Christ is a second Adam and in the thinking of church fathers such as Irenaeus who held that Christ recapitulates all humankind in himself and Augustine whose doctrine of original sin interprets the Adam and Eve story Batto also examines gnostic teachings about a heavenly Adam and an earthly Adam and surveys rabbinical attempts from the Talmudic period to find hidden meanings in the Genesis story Islam s emphasis on Satan s role in seducing Adam and Eve is also discussed and the book concludes with Milton s unforgettable retelling of the Adam and Eve story in Paradise Lost Batto s goal is not only to reveal the many faces given Adam and Eve throughout history but also to understand the divergent cultural and theological factors powering this long evolving tradition

Valkama, 2020-12-14 Magic in the Ancient Eastern Mediterranean Cognitive Historical and Material Perspectives brings together articles with the shared conviction that the category of magic remains useful in religious studies and provides new insights to biblical and related texts and artifacts Historically magic has been considered in both scholarly and popular

discourse to be questionable obscure and potentially subversive 19th century scholars of religion viewed magical beliefs and practices as primitive and inferior compared to Judeo Christian forms of worship which were considered true religion More recently the category has been defended especially by scholars of the cognitive science of religion who find it useful for delineating a set of beliefs and practices fundamental to all forms of religion The volume joins current scholarship in refraining from using the concept as an othering device and in arguing that it can still serve as a helpful analytical tool In addition to analyzing the discourse on magic in both ancient literature and modern scholarship the articles provide individual examples of how literary and material culture attest to the existence of magical beliefs and practices in sources from the Ancient Near East to the Byzantine Period The book is divided into three parts The contributions in the first part approach magic from the theoretical perspective of cognitive studies ritual studies and cultural evolution while the rest of the book focuses on how magic and magicians are understood in ancient sources The second part discusses a specific set of textual material dealing with blessings and curses The third part of the volume discusses the world of various destructive celestial beings from which one and one's loved ones had to be defended as well as the multitude of protective beings such as angels
