Drawing inputs from several, but inter-related disciplines including management, commerce and economics, finance is a basket full of jargon. Teaching finance involves simplifying concepts without letting the terms lose their gravity. This paper explores some key personal finance and investing topics that can be used in both professional and personal financial life.

A template / worksheet-based scoring system can help in this regard. Needless to say, spreadsheet skills are mandatory to do decent financial analysis, at least at basic level (Zhang, 2014). Even for mutual funds, a check-list driven evaluation system and a point-scoring system can help. However, industry-grade stock market data feeds are to be purchased and are often out of reach for smaller educational institutions or in ad hoc setups such as in a workshop. An
