domestic and romance films in Nazi Germany also represented an ideological stance Rather than reinforcing traditional gender role divisions and the status quo of the nuclear family these films were much more permissive about desire and sexuality than previously assumed Focusing on German romance films domestic melodramas and home front films from 1933 to 1945 Nazi Film Melodrama shows how melodramatic elements in Nazi cinema functioned as part of a project to move affect body and desire beyond the confines of bourgeois culture and participate in a curious modernization of sexuality engineered to advance the imperialist goals of the Third Reich Offering a comparative analysis of Nazi productions with classical Hollywood films of the same era Laura Heins argues that German fascist melodramas differed from their American counterparts in their negative views of domesticity and in their use of a more explicit antibourgeois rhetoric Nazi melodramas film writing and popular media appealed to viewers by promoting liberation from conventional sexual morality and familial structures presenting the Nazi state and the individual as dynamic and revolutionary Some spectators objected to the eroticization and modernization of the public sphere under Nazism however pitting Joseph Goebbels Ministry of Propaganda against more conservative film audiences in a war over the very status of domesticity and the shape of the family Drawing on extensive archival research this perceptive study highlights the seemingly contradictory aspects of gender representation and sexual morality in Nazi era cinema

Wanderer Between Two Worlds Saral Sarkar, 2025-01-13 In his autobiography Saral Sarkar takes us along on a journey through his interesting and eventful life He is one of the few persons who experienced the first full half of his life in a poor third world country India and the other half in a very developed European country Germany And he experienced these two countries intensively Unlike so many other immigrants he did not come to Germany for economic reasons but initially in the 1960s because of his love for the German language being trained there as teacher for German and then later in the 1980s he stayed there because of his love for his wife Maria Mies a famous German feminist and sociologist From an early age he was very interested in political issues and movements initially mainly from the left spectrum but later from the early 1970s on his concern for ecological issues came to the foreground The famous book The Limits to Growth from 1972 which influenced an entire generation and served as an

important impetus for the ecology movement was also a turning point in his personal thinking. He experienced the rise of the green movement and the Green Party in Germany at first hand but also left the Greens in disappointment in the second half of the 1980s. But it was not only political activism that shaped his life. From the 1980s onwards he became an increasingly prominent author on environmental and political issues with his two major works *Eco Socialism or Eco Capitalism: A Critical Analysis of Humanity's Fundamental Choices* and *The Crises of Capitalism: A Different Study of Political Economy*. It is no exaggeration to say that he is one of the most important contemporary thinkers on eco political issues, one who coined the term eco socialism in a consequent and clear way. The Fruits of Empirical Linguistics: Product Sam Featherston, Susanne Winkler, 2009. The architecture of the human language faculty has been one of the main foci of the linguistic research of the last half century. This branch of linguistics, broadly known as Generative Grammar, is concerned with the formulation of explanatory formal accounts of linguistic phenomena with the ulterior goal of gaining insight into the properties of the language organ. The series comprises high quality monographs and collected volumes that address such issues. The topics in this series range from phonology to semantics, from syntax to information structure, from mathematical linguistics to studies of the lexicon.
