3RD GRADE SOCIAL STUDIES

Branches of Local Government

Most communities have three branches of local government. Each branch has different jobs to do. The **mayor** is the leader of the local government. Usually citizens elect the mayor. The mayor works with the citizens and helps solve problems in the community. The mayor also works with the city council. A **city council** is a group of people who help make the laws for the city or town. The **court** is the third branch of the government. The courts help settle disagreements and decide if laws have been broken. All three branches work together to make sure the community is safe for their citizens.

State Government

Citizens also elect people to lead their state. Each state has their own plan for the government and how it is run. The leaders of the state government work in the state capital. The **capital** is the building where the leaders meet to make laws for the state.

States have three branches of government. Each branch has different jobs and responsibilities. All three branches work together to run the state. The group of people who make the laws for the state is called the **state legislature**. The legislature is made of state senators and representatives. They represent their city or town and help make laws for the state.

The next branch is the **executive branch**. The leader of the state is called the **governor**. The governor signs the laws made by the legislative branch. His main job is to carry out the state's laws. He also selects state workers to oversee different departments in the government.

The **courts** make up the third branch of government. Judges make sure that the laws follow the state constitution. They also decide if state laws have been broken.

Like the local government, the state government provides services for the citizens of the state. The government also has some jobs that are not shared. Some state workers are responsible for things like the state's police and fire departments. The state also has a state court system.
