through the Roman empire Constantinople European court societies the neoclassical English country house and the nineteenth century up to the modern museum A unique exploration of how each period of Western culture has transformed Greek and Roman antiquities and in turn been transformed by them this book revolutionizes our understanding of what classical art has meant and continues to mean Advancing Big Data Benchmarks Tilmann Rabl,Nambiar Raghunath,Meikel Poess,Milind Bhandarkar,Hans-Arno Jacobsen,Chaitanya Baru,2014-10-08 This book constitutes the thoroughly refereed joint proceedings of the Third and Fourth Workshop on Big Data Benchmarking The third WBDB was held in Xi an China in July 2013 and the Fourth WBDB was held in San Jos CA USA in October 2013 The 15 papers presented in this book were carefully reviewed and selected from 33 presentations They focus on big data benchmarks applications and scenarios tools systems and surveys **History of the ... **Principles of Fire and Emergency Services Administration Includes Navigate Advantage Access** Randy R Bruegman,2021-03-30 Revised edition of Fire administration Computerworld ,1981-07-06 For more than 40 years Computerworld has been the leading source of technology news and information for IT influencers worldwide Computerworld s award winning Web site Computerworld com twice monthly publication focused conference series and custom research form the hub of the world s largest global IT media network Competition Law and Financial Crime Diana Johnson,2025-02-18 Financial crime is a significant drain on economies across the world This book looks at one aspect of financial crime that of benchmark interest rate manipulation by competing banks with the aim of identifying the best approach for the United Kingdom to take to the enforcement of laws against future benchmark manipulation The manipulation of any benchmark interest rate by bankers colluding for their own gain is likely to negatively affect a large proportion of the population as many people have loans pegged to a benchmark interest rate This monograph investigates the approach the UK took to enforcing action against the benchmark manipulation which took place in the London Interbank Offered Rate and the Foreign Exchange benchmark manipulation scandals As part of this investigation the approaches taken

in the European Union and the United States of America are examined and compared to the approach taken in the UK for the same crime to draw conclusions and make recommendations to improve the UK approach for future instances of benchmark manipulation The work fills an important gap in the literature by comparing and evaluating the laws and enforcement policies pertaining to the use of competition law in counteracting benchmark manipulation in the UK EU and US It argues that competition law is an effective enforcement tool when used in the financial services sector and that it provides regulators with a wide range of enforcement options when a breach of competition law is established The book will be a valuable resource for academics researchers and policymakers working in the areas of financial crime competition law comparative law and criminal justice     Transnational Crime and Global Security Philip L. Reichel,Ryan Randa,2018-01-12

This two volume work offers a comprehensive examination of the distressing topics of transnational crime and the implications for global security National security is a key concern for individual nations regions and the global community yet globalism has led to the perfusion of transnational crime such that it now poses a serious threat to the national security of governments around the world Whether attention is concentrated on a particular type of transnational crime or on broader concerns of transnational crime generally the security issues related to preventing and combatting transnational crime remain of top priority concern for many governments Transnational Crime and Global Security has been carefully curated to provide students scholars professionals and consultants of criminal justice and security studies with comprehensive information about and in depth analysis of contemporary issues in transnational crime and global security The first volume covers such core topics as cybercrime human trafficking and money laundering and also contains infrequently covered but nevertheless important topics including environmental crime the weaponization of infectious diseases and outlaw motorcycle gangs The second volume is unique in its coverage of security issues related to such topics as the return of foreign terrorist fighters using big data to reinforce security and how to focus efforts that encourage security cooperation
