Landing Together Kathleen H. Hicks, Mark F. Cancian, Andrew Metrick, John Schaus, 2016-07-26 Investments in amphibious capabilities by U.S. partners and allies in the Asia Pacific is altering the range of capabilities available in that region. It is also changing the types and frequency of exercises partner nations seek to undertake with the U.S. Navy and Marine Corps team. This study examines ally and partner nation investments in amphibious capabilities, how those capabilities will impact demand for U.S. forces and the range of U.S. amphibious fleet composites to meet the changing demand.

Perspectives on Taste Jeremy Wyatt, Julia Zakkou, Dan Zeman, 2022-04-27 This book offers a sustained interdisciplinary examination of taste. It addresses a range of topics that have been at the heart of lively debates in philosophy of language, linguistics, metaphysics, aesthetics and experimental philosophy. Our everyday lives are suffused with discussions about taste. We are quick to offer familiar platitudes about taste but we struggle when facing the questions that matter: what taste is, how it is related to subjectivity, what distinguishes good from bad taste, why it is valuable to make and evaluate judgments about matters of taste and what exactly we mean in speaking about these matters. The essays in this volume open up new intersecting lines of research about these questions that cross traditional disciplinary boundaries. They address the notion of aesthetic taste, connections between taste and the natures of truth, disagreement.
