

HOW TO USE A NEBULIZER

1. Put Medication in the cup.

Mouth
Piece

Or

Mask

2. Choose mask or mouth piece.

Nebulizer cup

3. Attach tubing to cup

4. Place mask on face (for babies and smaller children) or insert mouth piece (for older children and adults).

Once you turn on the machine, a mist will start to flow from the mask or mouth piece, this is the medication your child needs to breathe in. The medication will take about 5-10 minutes, sometimes longer. You will know when it's done when the mist stops flowing out.

Babies and smaller children may fight to take off the mask; sometimes a distraction might help such as watching TV, listening to music, giving the baby a bottle or pacifier. All children are different and you may have to learn which way works better for them.
