Federal Communications Commission, 2017. *Your Call Is (Not That) Important to Us* Emily Yellin, 2010-08-17. Bring up the subject of customer service phone calls and the blood pressure of everyone within earshot rises exponentially. Otherwise calm, rational and intelligent people go into extended rants about an industry that seems to grow more inhuman and unhelpful with every phone call we make. And Americans make more than 43 billion customer service calls each year. Whether it's the interminable hold times, the outsourced agents who can't speak English or the multitude of buttons to press and automated voices to listen to before reaching someone with a measurable pulse, who hasn't felt exasperated at the abuse, neglect and wasted time we experience when all we want is help and maybe a little human kindness? *Your Call Is Not That Important to Us* is journalist Emily Yellin's engaging, funny and far reaching exploration of the multibillion dollar customer service industry and its surprising inner workings. Yellin reveals the real human beings and often surreal corporate policies lurking behind its

aggravating facade After reading this first ever investigation of the customer service world you'll never view your call center encounters in quite the same way Since customer service has a role in just about every industry on earth Yellin travels the country and the world meeting a wide range of customer service reps corporate decision makers industry watchers and Internet based consumer activists She spends time at outsourced call centers for Office Depot in Argentina and Microsoft in Egypt She gets to know the Mormon wives who answer JetBlue's customer service calls from their homes in Salt Lake City and listens in on calls from around the globe at a FedEx customer service center in Memphis She meets with the creators of the yearly Customer Rage Study customer experience specialists at Credit Suisse in Zurich the founder and CEO of FedEx and the CEO of the rising Internet retailer Zappos.com Yellin finds out which country complains about service the most Sweden interviews an actress who provides the voice for automated answering systems at many big corporations and talks to the people who run a website GetHuman.com that posts codes for bypassing automated voices and getting to an actual human being at more than five hundred major companies Yellin weaves her vast reporting into an entertaining narrative that sheds light on the complex forces that create our infuriating experiences She chronicles how the Internet and global competition are forcing businesses to take their customers' needs more seriously and offers hope from people inside and outside the globalized corporate world fighting to make customer service better for us all *Your Call Is Not That Important to Us* cuts through corporate jargon and consumer distress to provide an eye opening and animated account of the way companies treat their customers how customers treat the people who serve them and how technology globalization class race gender and culture influence these interactions Frustrated customers smart executives and dedicated customer service reps alike will find this lively examination of the crossroads of world commerce the point where businesses and their customers meet illuminating and essential

At the Altar of the Bottom Line Tom Juravich, 2009 Based on extensive interviews with workers in four different industries this book takes us behind the statistics of the economic collapse and into the lives of Americans who are struggling to make ends meet and support their families Tom Juravich combines oral history with social and economic analysis to provide a vivid account of the multiple challenges presented in today's workplaces At a Verizon call center in Andover Massachusetts customer service reps find themselves overwhelmed by the pace of work and the constant monitoring

They describe a daily routine marked by regimentation intense pressure to sell and unrelenting stress In New Bedford undocumented Guatemalans in the fish processing industry are fired if they don t work fast enough cheated out of wages and mistreated by supervisors Juravich describes a brutal immigration raid by U S Immigration and Customs Enforcement that divided families and forced workers further underground Juravich then takes us inside the operating rooms at the Boston Medical Center where hospital consolidation has brought a new bottom line philosophy that has fundamentally altered the way patient care is delivered Surgery takes place almost non stop driving some nurses from their chosen profession and leaving those who remain exhausted The final case study looks at the shuttering of the Jones Beloit plant an internationally known manufacturer of machinery for the paper industry Despite the best efforts of highly skilled and productive workers to save their plant it was abruptly closed and they were abandoned after their CEO recklessly became involved in a shaky foreign investment Juravich argues that workers face a series of paradoxes in the contemporary American workplace They can no longer assume that large established firms create good jobs The new working conditions often resemble what was traditionally associated with marginal and low wage employers He concludes that we must bring a discussion about the quality of jobs back into the public discourse and that a good jobs strategy is a fundamental building block to economic recovery Workers voices are front and center in this highly readable book It includes striking photographs by Paul Shoul and a CD that presents a series of audio documentaries with excerpts from the interviews as well as four original songs written and performed by Juravich
