The Memory Hole Fritz Fischer, 2013-12-01 The US history curriculum is under attack. Politicians, political analysts, and ideologues seek to wipe clean the slate of the American past and replace it with one of their own invention. The basis for this new narrative comes from political beliefs of the present rather than any systematic examination of the past. These anti-historians campaign to insert their version of American history into the nation's classrooms, hoping to begin a process that will forever transform our understanding of America's past. **The Memory Hole** examines five central topics in the US history curriculum, showing how anti-historians of both the left and right seek to distort these topics and insert a refashioned story in America's classrooms. Ignoring facts, refashioning other facts, and pretending that there are no rules in the telling of history, these re-interpreters of the past place the minds of America's young people in danger. The beleaguered hero of this book is the discipline of History, and **The Memory Hole** shows how the history curriculum should adhere to history's habits of mind that require complex, sophisticated, and subtle thinking about the past. History and social studies teachers, students of history, and all those who care about the deep and enduring value of history will value this book and its conclusions. **The History**

of the Progressive Movement in the United States and How Liberalism Has Created a Mediocre Society Ralph E. Saucier, 2021-09-27 Being raised in the 50s, a lot of us have seen how the country has changed when you see that a Chevy that would cost 1500.00 is now over 35,000.00. Yeah, I know, some say inflation can't be helped; technology costs more, materials cost more, there are more exotic materials, and they last longer. Maybe, but where does it stop? When will politicians of both parties begin to understand and realize what is going on? Questions for my fellow Americans: 1. When will the deficit stop? 2. Consumers don't know if and when inflation will stop; the deficit will break the American taxpayer. Inflation is what pays off the deficit. 3. When will the liberals realize there is no more money to pay off debts? 4. America cannot keep printing money and expect to have a strong economy. 5. Is the United States headed towards a socialist form of government and a one-party system?

Les réalités de la réalité - Première partie: L'intériorité comme point de départ Fritz Dufour, MBA, DESS, 2018-03-16. Ce livre est le premier d'une série qui examine les divers aspects de la réalité. Je l'intitule L'intériorité comme point de départ parce que la réalité puise ses racines partir de chacun de nous individuellement et indépendamment. Cela commence par notre intériorité avant d'aboutir vers ce que j'appellerais la réalité collective, c'est-à-dire un état universellement accepté dans lequel des groupes de personnes des nations entières ou le monde entier croient. Cette réalité inclut les croyances, les cultures, les idéologies, etc. Au fur et mesure que nous changeons et que nous nous adaptons notre environnement, notre réalité change également. De nouvelles réalités émergent. Le premier chapitre concerne la perception et nos sens. Il démontre comment la perception est impossible sans nos sens. Quel que soit l'angle de réalité analysé, un ou plusieurs de nos sens jouent un rôle important dans sa compréhension. Le chapitre deux considère le rôle du cerveau dans la réalisation de la réalité. Il se penche sur la façon dont le cerveau peut faire en sorte que l'esprit se comporte d'une certaine manière dans certaines circonstances. Le chapitre trois considère l'esprit que j'appelle le générateur par excellence de la réalité. Ce chapitre décrit l'esprit en tant que composante intangible du cerveau et où la réalité ou toutes les réalités découlent après être bien structurées par les sens et le cerveau. Le chapitre quatre, le plus long de cette première partie, tente de définir la réalité elle-même après qu'elle soit perçue par nos sens, découpée par notre cerveau et traitée par notre esprit. Je considère cinq questions dans ma tentative de répondre la question qu'est-ce que la réalité. Elles sont qu'est-ce que la matière et pourquoi ses composantes ne se ressemblent-elles pas? Qu'est-ce que la vie et ses origines? Qu'est-ce que la mort? Qu'est-ce que la superstition? Qu'est-ce que l'espace et sommes-nous seuls dans l'univers.
