advanced by a lender Valid and enforceable security reduces the risk to the lender and so lowers the cost of credit to the borrower However the Hong Kong system being largely derived from English law is highly complex and in need of root and branch reform The forces of inaction have triumphed and valuable opportunities to create a modern rational and efficient system have been squandered In China on the other hand a completely new system has been created in the last twenty years which whilst it has various problems and defects has some notable advantages over the common law equivalent found in Hong Kong *Privacy Act Issuances ...
