Stability improves when the tripod legs are opened, however the role of these legs is to assist the monopod, so please ensure you hold your camera firmly when attached. Do not step on the legs as this can cause damage.

When moving from place to place, please ensure you detach your camera from the monopod, otherwise movement could cause your camera to detach and fall.

Direct Contact Pipe (Twist-lock system)

To extend tripod legs, twist anti-clockwise to unlock, then extend as required and twist clockwise to lock.

The twist-lock system enables easy set-up as well as excellent rigidity when extended.
