Modernism and Totalitarianism Richard Shorten,2012-11-15 What is totalitarianism In what ways was it modern Modernism and Totalitarianism argues that conventional theories of totalitarianism are too focused on the state and fail to take note of its ideological trajectory The book analyses this trajectory shared by Nazism and Stalinism the two instances of totalitarianism in its classical form The ideological trajectory was formed in the interaction of three currents of modernist thought utopianism scientism and revolutionary violence Developing first of all in the nineteenth century and in reaction to the Enlightenment mainstream each of these three currents contributed to the idea of the totalitarian New Man The book considers a broad range of theoretical positions including those associated with Cold War liberalism critical theory and recent anti totalitarian thought in France in order to develop these arguments **Which Way America?** Lyman

Bryson,1939 The Devil in History Vladimir Tismaneanu,2014-03-14 The Devil in History is a provocative analysis of the relationship between communism and fascism Reflecting the author s personal experiences within communist totalitarianism this is a book about political passions radicalism utopian ideals and their catastrophic consequences in the twentieth century s experiments in social engineering Vladimir Tismaneanu brilliantly compares communism and fascism as competing sometimes overlapping and occasionally strikingly similar systems of political totalitarianism He examines the inherent ideological appeal of these radical revolutionary political movements the visions of salvation and revolution they pursued the value and types of charisma of leaders within these political movements the place of violence within these systems and their legacies in contemporary politics The author discusses thinkers who have shaped contemporary understanding of totalitarian movements people such as Hannah Arendt Raymond Aron Isaiah Berlin Albert Camus Fran ois Furet Tony Judt Ian Kershaw Leszek Kolakowski Richard Pipes and Robert C Tucker As much a theoretical analysis of the practical philosophies of Marxism Leninism and Fascism as it is a political biography of particular figures this book deals with the incarnation of diabolically nihilistic principles of human subjugation and conditioning in the name of presumably pure and purifying goals Ultimately the author claims that no ideological commitment no matter how absorbing should ever prevail over the sanctity of human life He comes to the conclusion that no party movement or leader holds the right to dictate to the followers to renounce their critical faculties and to embrace a pseudo miraculous a mystically self centered delusional vision of mandatory happiness **Popular Opinion in Totalitarian Regimes** Paul Corner,2009-10 A team of internationally acknowledged experts examines the question of popular opinion in totalitarian regimes looking at the ways in which ordinary

people experienced everyday life in the Soviet Union Nazi Germany and Fascist Italy with consideration also of Poland and East Germany between 1945 and 1989 **Fascism and Communism** François Furet, Ernst Nolte, 2001-01-01 In his major work on communism the international bestseller *The Passing of an Illusion* the eminent French historian François Furet devoted a lengthy footnote to German historian Ernst Nolte's interpretation of fascism Nolte responded a correspondence ensued and the result was the remarkable exchange presented in this volume *Fascism and Communism* offers readers the rare opportunity to witness and learn from a confrontation between two of the world's most distinguished historians over one of the most serious subjects of our time Each from a different perspective Furet and Nolte offer compelling arguments for the common genealogy of these two ideologies as well as reasons for the intellectual community's rejection of this explosive thesis throughout the twentieth century This discussion leads to a deeper understanding of the nature of totalitarianism as well as the trajectory and interpretation of modern European history *Fascism and Paganism* Craig Read, 2006 Fascism is not a modern era phenomenon nor is it unique It has been the de facto organizing principle of mankind for most of history Paganism is a form of pre modern fascism Most religious orthodoxies are of course premised on pagan cults Modern fascism uses the guise of spirituality in the form of paganism to spiritually justify its assault on civilization When the two are fused spiritual paganism with modern fascism you have a violent and hate filled philosophy that finds its expression in Hitlerism Communism and Islam This book compares these three modern forms of an age old evil that has been the main obstacle to human progress This book was written after extensive research travel interviews and help from others more knowledgeable on certain topics I don't pretend to be an expert in all the areas of historical political and economic development Nor am I posing as the expert investigator on any of the chosen themes that populate the work Thousands of more competent analysts exist in each area I wrote this book to objectively narrate a common thread and threat in human history namely that of Fascism and its orientalist genetic composition It is important in life to impartially record reality to see the world for what it is and to defend our civilization against utopia's fantasies and evil In this regard we need more literature and expositions which make the link between the various ideologies which are in essence pagan cults their commonality throughout history and their threat to civilization It is the threat posed to civilization by immoderate Islam another type of pagan cult that prompted the creation of this summary work Let me explain as well what this book is not It is not a diatribe against individual Muslims it is not a declaration of hate against any non Western people lands or empires it is not intended to be the most detailed study of any of the fascist cults past or present and it is not intended to supplant any of the existing literature on Nazism Stalinism or Islam The book does intend however to show a common framework amongst the pagan ideologies that have tried to end mankind's development and extinguish liberty To keep the book short and concise I have chosen to focus on three primary cults namely Hitler's Germany Lenin Stalinism in Russia and Islam I could have discussed other cults and movements but the essential points I want to make can be given by examining these three ideological fascisms The

conclusions formed by such a comparison can be extended to various other criminal ideologies and regimes throughout mankind's history I hope the book clarifies some ideals opens some minds and gives some food for thought You can read the book in its entirety or skip to a chapter that is of more interest I have tried to keep all the footnotes down to a minimum though I do source all ideas that are not my own If you have any questions on sources content or where my ideas come from then please ask As for people who constantly harp that criticism is akin to hate speech do some reading live in a fascist state and understand what freedom really means My website is www.craigread.com Craig Read Toronto Canada Happy home of a corrupt paternalistic over governed Socialist State other works include 2 books on Churchill and USA vs Europe Power and Conflict many articles and opinions exist at www.craigread.com *Communism Versus Fascism* William Z. Foster, 1941

Democracy is Different, 1941 *Stalinism and Nazism* Henry Rousso, Richard Joseph Golsan, 2004-01-01 In this volume Europe's leading modern historians offer new insights into two totalitarian regimes of the twentieth century that have profoundly affected world history Nazi Germany and the Stalinist Soviet Union Until now historians have paid more attention to the similarities between these two regimes than to their differences Stalinism and Nazism explores the difficult relationship between the history and memory of the traumas inflicted by Nazi and Soviet occupation in several Eastern European countries in the twentieth century The first part of the volume explores the origins nature and organization of Hitler's and Stalin's dictatorial power the manipulation of violence by the state systems and the comparative power of the dictator's personal will and the encompassing totalitarian system The second part examines the legacies of the Nazi and Stalinist regimes in Eastern European countries that experienced both Stalinism and Nazism features the latest critical perspectives on two of the most influential and deadly political regimes in modern history *WHICH WAY AMERICA?*

LYMAN. BRYSON, 2018 **Weimar Radicals** Timothy Scott Brown, 2009-04-01 Exploring the gray zone of infiltration and subversion in which the Nazi and Communist parties sought to influence and undermine each other this book offers a fresh perspective on the relationship between two defining ideologies of the twentieth century The struggle between Fascism and Communism is situated within a broader conversation among right and left wing publicists across the Youth Movement and in the National Bolshevik scene thus revealing the existence of a discourse on revolutionary legitimacy fought according to a set of common assumptions about the qualities of the ideal revolutionary Highlighting the importance of a masculine militarist politics of youth revolt operative in both Marxist and anti Marxist guises *Weimar Radicals* forces us to re think the fateful relationship between the two great ideological competitors of the Weimar Republic while offering a challenging new interpretation of the distinctive radicalism of the interwar era **Europe's Century of Discontent** Shlomo Avineri, Zeev Sternhell, 2003 With the demise of the Soviet Union and the collapse of Communism in Eastern Europe a number of questions regarding the conventional understanding of totalitarianism could now be viewed in the new light The classical studies of totalitarianism were undertaken when Nazism and Fascism had been vanquished while the Soviet system still existed this

created an asymmetry which could now be overcome. The ideological Cold War edge which sometimes accompanied debates about totalitarianism was similarly blunted. The impetus which these developments could give to new angles of research and historical perspective was the focus of the conference *Reflections on Europe's Century of Discontent* held at the Institute for European Studies at the Hebrew University of Jerusalem. More than a dozen participants from eight countries: political scientists, historians, lawyers, as well as political activists, took part in what was an exciting exercise in re-evaluation and re-assessments. The results are presented in this volume.

Fascism and Dictatorship Nicos Poulantzas, 2019-01-29 Poulantzas's book is the first major Marxist study of German and Italian fascism to appear since the Second World War. It carefully distinguishes between fascism as a mass movement before the seizure of power and fascism as an entrenched machinery of dictatorship. It compares the distinct class components of the counter-revolutionary blocs mobilized by fascism in Germany and Italy, analyses the changing relations between the petty bourgeoisie and big capital in the evolution of fascism, discusses the structures of the fascist state itself as an emergency regime for the defense of capital and provides a sustained and documented criticism of official Comintern attitudes and policies towards fascism in the fateful years after the Versailles settlement. *Fascism and Dictatorship* represents a challenging synthesis of factual evidence and conceptual analysis that has been rare in Marxist political theory to date.

Fascism James D. Forman, 1976 Defines fascism and discusses its origin, its development throughout the world and its future.

Today's Isms William Ebenstein, 1954 From the preface: The major conflict of our age is the struggle between aggressive totalitarianism and the free way of life. Not long ago the chief threat to liberty was fascism; today it is communism. This book is a discussion of the main representatives of each side: communism and fascism on the totalitarian side; capitalism and socialism on the democratic. The key approach in this book is through the way of life concept rather than through one particular aspect; also the psychological roots are given close attention.
