Version Originale Gaston Vo 1982 1996:

The Silent Majority Matthew D. Lassiter, 2013-10-24 Suburban sprawl transformed the political culture of the American South as much as the civil rights movement did during the second half of the twentieth century The Silent Majority provides the first regionwide account of the suburbanization of the South from the perspective of corporate leaders political activists and especially of the ordinary families who lived in booming Sunbelt metropolises such as Atlanta Charlotte and Richmond Matthew Lassiter examines crucial battles over racial integration court ordered busing and housing segregation to explain how the South moved from the era of Jim Crow fully into the mainstream of national currents During the 1960s and 1970s the grassroots mobilization of the suburban homeowners and school parents who embraced Richard Nixon's label of the Silent Majority reshaped southern and national politics and helped to set in motion the center right shift that has dominated the United States ever since The Silent Majority traces the emergence of a color blind ideology in the white middle class suburbs that defended residential segregation and neighborhood schools as the natural outcomes of market forces and individual meritocracy rather than the unconstitutional products of discriminatory public policies Connecting local and national stories and reintegrating southern and American history The Silent Majority is critical reading for those interested in urban and suburban studies political and social history the civil rights movement public policy and the intersection of race and class in modern America

The Topkapi Scroll Gülru Necipoğlu, 1996-03-01 Since precious few architectural drawings and no theoretical treatises on architecture remain from the premodern Islamic world the Timurid pattern scroll in the collection of the Topkapi Palace Museum Library is an exceedingly rich and valuable source of information In the course of her in depth analysis of this scroll dating from the late fifteenth or early sixteenth century Gülru Necipoğlu throws new light on the conceptualization recording and transmission of architectural design in the Islamic world between the tenth and sixteenth centuries Her text has particularly far reaching implications for recent discussions on vision subjectivity and the semiotics of abstract representation She also compares the Islamic understanding of geometry with that found in medieval Western art making this book particularly valuable for all historians and critics of architecture The scroll with its 114 individual geometric patterns for wall surfaces and vaulting is reproduced entirely in color in this elegant large format volume An extensive catalogue includes illustrations showing the underlying geometries in the form of incised dead drawings from which the individual patterns are generated An essay by Mohammad al Asad discusses the geometry of the muqarnas and demonstrates by means of CAD drawings how one of the scroll's patterns could be used to design a three dimensional vault
