Assumptions of the Tea Party Movement David Warfield Brown, 2016-07-20 This book presents a reassessment of the fundamental principles of the Tea Party movement The Tea Party movement is largely associated with those who want a severely limited federal government spending far fewer taxpayer dollars What gets less attention are the underlying Tea Party sentiments that the book argues are not so much false as they are terribly dated in light of the current national landscape Such sentiments include prioritizing self reliance viewing politics as a dirty business considering free enterprise unassailable and believing the earth to be man s possession Brown skillfully and thoughtfully breaks from partisan considerations to get at the root of the movement arguing that too many Tea Partiers are living in a world of their own which given so many pressing problems in the world amounts to what Brown calls sentimental mischief *Co-Crafting the Just City* James A.
