SDGs in Africa and the Middle East Region Ismaila Rimi Abubakar, Izael da Silva, Rudi Pretorius, Khaled Tarabieh, 2024-09-01 Africa is one of the most vulnerable regions and one where the implementation of the SDGs is particularly urgent. Underinvestments in natural conservation are increasing the vulnerability of people across many African countries whose well being is endangered by deteriorating socio economic and environmental conditions. This volume provides a contribution towards showcasing how natural resources may be more efficiently used and investments may be mobilised to augment the limited public sector funds available to achieve the SDGs. This book is part of the 100 papers to accelerate the implementation of the UN Sustainable Development Goals initiative. **A Botswana Traveler'S Companion; English Setswana Phrase Book** Beauty Bogwasi, 2015-04-09 This phrase book is a great resource for both first time and repeat travellers to Botswana. It offers you information about the country, the people, the Setswana language, animals, birds of Botswana and essential Setswana phrases and much more. This tool adds mileage to your travel and tour experience of Botswana, the language and the culture. A Thesaurus of African Languages Michael Mann, David Dalby, 2017-09-18 Originally published in 1987, this thesaurus is concerned with the spoken languages of Africa. Languages are grouped into a relatively large number of sets and subsets within which the relationship of languages to one another is locally apparent and uncontroversial. The volume presents the languages in classified order with notes on each language, their variant names and immediate classification and reference to the sources consulted. One section offers an exhaustive list of the languages spoken as home languages by local communities in each state together with details of languages widely used for inter group communication given official recognition or used in education or the media. There are brief phonological analyses of a broad sample of some 20 African languages and a comprehensive bibliography and language index to the whole work. **Death in a Church of Life** Frederick Klaits, 2010-02-08 This deeply insightful ethnography explores the healing power of caring and intimacy in a small, closely bonded Apostolic congregation during Botswana's HIV/AIDS pandemic. Death in a Church of Life paints a vivid picture of how members of the Baitshapi Church make strenuous efforts to sustain loving relationships amid widespread illness and death. Over the course of long term fieldwork, Frederick Klaits discovered Baitshapi's distinctly maternal ethos and the spiritual kinship embodied in the church's nurturing fellowship practice. Klaits shows that for Baitshapi members, Christian faith is a form of moral passion that counters practices of divination and witchcraft with redemptive hymn singing, prayer and the use of therapeutic substances. An online audio annex makes available examples of the church members preaching and song. Setswana Communication and Culture Handbook David B. Hopkins, 1979 Voices of Authority Monica Heller, Marilyn Martin-Jones, 2001-02-28 One of the major challenges of our day is the provision of effective democratic education under conditions of increasing sociolinguistic diversity and change. Yet most work on this subject focuses on linguistic, cognitive, pedagogical or policy dimensions of education and linguistic diversity, failing to

address social and political issues This volume argues that these are central to understanding the significance and consequence both of educational policy and practices in multilingual settings and language policy and practices as they manifest themselves through education Specifically we argue that language practices in these settings reveal struggles over the establishment of authority and legitimacy they can be interpreted as voices expressing a variety of social positions and interests to the resources distributed through educational institutions and processes They reveal what is at stake and for whom in choices made at state institutional school and other levels regarding both language of instruction and assessment as well as regarding language teaching and learning and the evaluation of linguistic proficiency

Setswana Special Skills Handbook, 1979 Collaborative community partnerships across education settings Mariëtte P. Koen, Luiza O. De Souza, 2025-02-25 This book features chapters by scholars from various education fields specialising in sustainability As the first volume in North West University's Community based Educational Research Series it focuses on transforming education through a participatory approach The authors explore quality education across early childhood primary secondary and higher education by examining collaborative efforts among practitioners parents and teachers This scholarly book provides empirical evidence on how collaborative initiatives can promote sustainable development These initiatives encourage partnerships among community leaders educators learners nongovernmental organisations government and the private sector for lifelong learning and professional development It highlights southern African experiences in collaborative education aligned with the United Nations sustainable development goal of achieving quality education The book demonstrates various research designs and methods applied to educational practice from early childhood to tertiary levels through empirical research and community projects

The Oxford Guide to the Bantu Languages Lutz Marten, Ellen Hurst-Harosh, Nancy C. Kula, Jochen Zeller, 2025-08-19 This volume brings together leading scholars from Africa Europe the Americas and beyond to provide a detailed account of the languages of the Bantu family which cover an area from Cameroon and Kenya in the north to South Africa in the south The Bantu family is part of the Niger Congo phylum and one of the world's biggest language groups comprising around 500 languages The family includes major languages with large numbers of speakers such as Zulu Kinyarwanda and Swahili the most widely spoken and taught African language as well as many community languages and several endangered languages Bantu languages feature prominently in the complex and multilingual language ecologies that are characteristic of the linguistic situation in much of Africa and they provide rich evidence for the study of theoretical and comparative linguistics language contact and language change They play an important role in education commerce culture and artistic expression in the media and public discourse in governance and social justice and are central to the future of the continent and the well being of its communities The first part of The Oxford Guide to the Bantu Languages provides background and context with chapters exploring the history of research in the field language and prehistory in Bantu speaking Africa and typology and variation Chapters in the second part offer broad

comparative overviews of Bantu phonology morphology syntax semantics and pragmatics socio and applied linguistics before Parts III VII cover more specific topics in Bantu linguistics across a variety of subfields ranging from structural issues such as the augment and melodic tone to historical and sociolinguistic topics such as Bantu languages in the diaspora and language policy and standardization The chapters in the final part offer individual structural overviews of a range of languages from across the Bantu speaking area The book will be an essential resource for students and researchers specializing in the Bantu languages and for typologists and comparative linguists more broadly

Researching Possibilities in Mathematics, Science and Technology Education Mamokgethi Setati, 2009 Mathematics Science and Technology Education MSTE emerged as a research discipline in the 1960s and continues to reflect the distinctive flavour and character of its roots in Western societies and science In this mode often based on positivist frameworks research environments are characterised by idealised environments sanitised research conditions depoliticised neutralised data and contested analyses The book arises from needs in the mathematics and science education research community in Southern Africa for a methodology text that is responsive to rapidly changing educational environments and to the challenges and possibilities of research in contexts characterised by inequality diversity poverty violence the particular history within which research takes place and the consequent ethical and socio political considerations The book also acknowledges and works with the practical and political realities of education and schooling in much of Southern Africa where schools are often poorly resourced and communication with them is often difficult and where research methodologies and ethics have to take account

of the complexities of school operations and school community relationships The book does not aim to position itself as a counterpoint to conventional research methodologies It aims to build on the established base of mainstream MSTE and seeks to elevate and widen the debates raise methodological issues and offer innovative possibilities and pedagogies To this end the chapters present theoretical meta level reflections on issues in research design in the fields of mathematics science and technology education In this shift of focus the book draws on a number of fairly recent research approaches These include ethno mathematics cultural studies in science education place based education community based education environmental education socially critical theory and education for social and economic development
